New Business

- Max gave a verbal update on the January 15 Safety Walk. Attached is the memo he submitted with pros and cons of the walk. Melissa asked who she should contact to update the outdated building emergency response guides in Polsky. Max will contact Mark Beers, Andrew McGee as well as Eric Green about getting updated signage etc. and to have them contact Melissa. Marilia also asked for the contact information for Bierce.

Old Business

- Eric Greene has not been rescheduled yet to come to a future meeting.

General Updates from Stephen Myers

- Various heating and water pipe issues around campus. Had issues in National Polymer Innovation Center (NPIC), Quaker Square, Exchange St. dorm, crawlspace in the law school, Akron Engineering Research Center, Crouse Hall. Robertson water heater supposed to go in the next few weeks.
- Should receive grant reimbursement on the Wonder bread demolition within the next 2 weeks.
- Central Hower—small project of getting HVAC into a suite so that the Grounds department can move in temporarily and they can clear out of the Wonder bread building.
- Simmons 101/109 and Rec Center mental health spaces-- interior designer will begin commencing working on this project.
- Dunkin agreement for the architects is being reviewed.
- Hard scape-Columbus released funds. Will start work on the East side of campus as soon as they are able. Contract signed by early next week. Bulk of the work in the center of campus (in front of Buchtel and Bierce) will start in May after the Spring semester graduation. Then next summer/fall and into the next year is when they'll be starting work over in Craig's location. They will be separating pedestrian traffic and creating a dedicated drive for the engineering buildings for their deliveries. Trees were cut down at the start of this project for the new walkway. Most of the trees will be replaced. There are no plans for any type of ribbon cutting as there are no funds.
- Cooling tower replacement number 1 over at the plant. In the process of interviews and selecting an engineering firm.
- Elevator modernization—looking at the elevator in Buckingham. Some of that work probably starting as early as next month. Leigh Hall elevator work to take place starting in March. Polsky elevators still a ways out to getting fixed.
- Mechanical infrastructure--Did additional services for in-ground faults and lines to replace. Paying with state funds. Going to be doing the old vault at Olson and also doing the lines right through the center of campus that go to Honors college.
- Power outage work last week on 7th and 8th went well. But other issues cropped up in the law school.
- Quaker Square/Martin Center—In talks with potential buyer for Quaker Square. Keep fingers crossed.
- Knight Chemicals getting renovation to their chemical storage space.

8. If you have a document that provides supporting materials for this month's work, upload here. This attachment should not be the monthly minutes (minutes should be submitted in #7 above).
