Approvals • A motion to approve the 9/18/25 agenda was made by Melissa, seconded by Lisa. • A motion to approve the 8/20/25 minutes was made by Melissa, seconded by Lisa. New Business • Elections: Marilia asked if anyone would like to nominate themselves for an officer position on this committee. Since there were no nominations, Marilia will continue to be Chair, Lisa will continue to be Vice Chair and Becky will continue to be Secretary. • Marilia welcomed our newest member, Maggie Mahaney, representing USG. • Marilia reviewed with the committee and will submit the committee’s annual report to the University Council. A copy is attached. • Marilia reviewed with the committee and will submit the committee’s 2025-2026 goals to the University Council. A copy is attached. General Updates from Larry Blake • Martin Center—Controlling Board approved transfer of property on 8/25 and our involvement will be coming to an end. • Lincoln Building demolition--the site survey and environmental assessment are currently underway and an appraisal will also be developed. • Knight chemical storage--the controlling board approved on 8/25 and the project is scheduled to be completed by the end of the year. • Knight Center for Creative Engagement (Polsky)--schematic design is 98% complete and architects are proceeding into design development. One of two maximum pricing is due in January and will cover the space on the second level that disaster science will occupy, as well as space on the third level for the administrative suite which is comprised of HR, Capital Planning and few other offices. • Elevator Modernization—(Polsky): The 3 main passenger elevators are scheduled to be completed by the end of this year. Currently relying on one aging passenger elevator and one aging freight elevator. (Leigh Hall and Buckingham): Those elevators have finally passed the inspection by the state. The work on both elevators have been completed for months, but there were some hurdles that we had to complete due to new elevator code requirements.(Cameras in the main compartment are now required along with monitoring the camera feeds.) • The Buchtel Commons Hardscape Project--The phase two concrete work is 75% complete and the construction fences have been adjusted to allow construction to occur between Ritchie and Crouse Hall. Jim Haskell and the Accessibility office are working to communicate the new pedestrian routes.. • ASEC Plaza plant funds have been approved for the repairs to the concrete roof/plaza structure and the draft RFQ for structural engineering design services is being reviewed. • Gazeta EJ Thomas Bridge--Funds have been approved for the demolition of the bridge and proposals are being solicited from structural engineering firms. • The West Campus parking deck--Hausenstab Architects were selected for this project and design and analysis is now underway. We have a limited budget at present. CFO, Misty, is looking to hopefully expand the budget. • Accessibility/Safety goals--Working with Dave and Sean Stevens in identifying automatic door operators that are not functioning properly. Addressing those doors that don’t have an immediate fix. • Shrank Hall-- Dave has had a roofing company up on the roof of Shrank to try to stabilize the situation (currently no leaks in the roof) but the entire roof needs replaced. Elevators both in North and South Shrank need to be modernized. Because of these issues, trying to move all classes out of Shrank. But Misty is looking into possible uses for the building as he won’t be getting local funds to help with these costs until a use is defined. The large auditorium is currently not in use. Old Business • None Announcements/Good of the Order • Due to the current construction around the main campus and the timeliness of reviewing space requests, it was suggested to have ad hoc electronic votes instead of waiting until our regular monthly meetings to review. Consequently, for the next several months, we will
