2 Double-click the page where you want to add a Hero widget

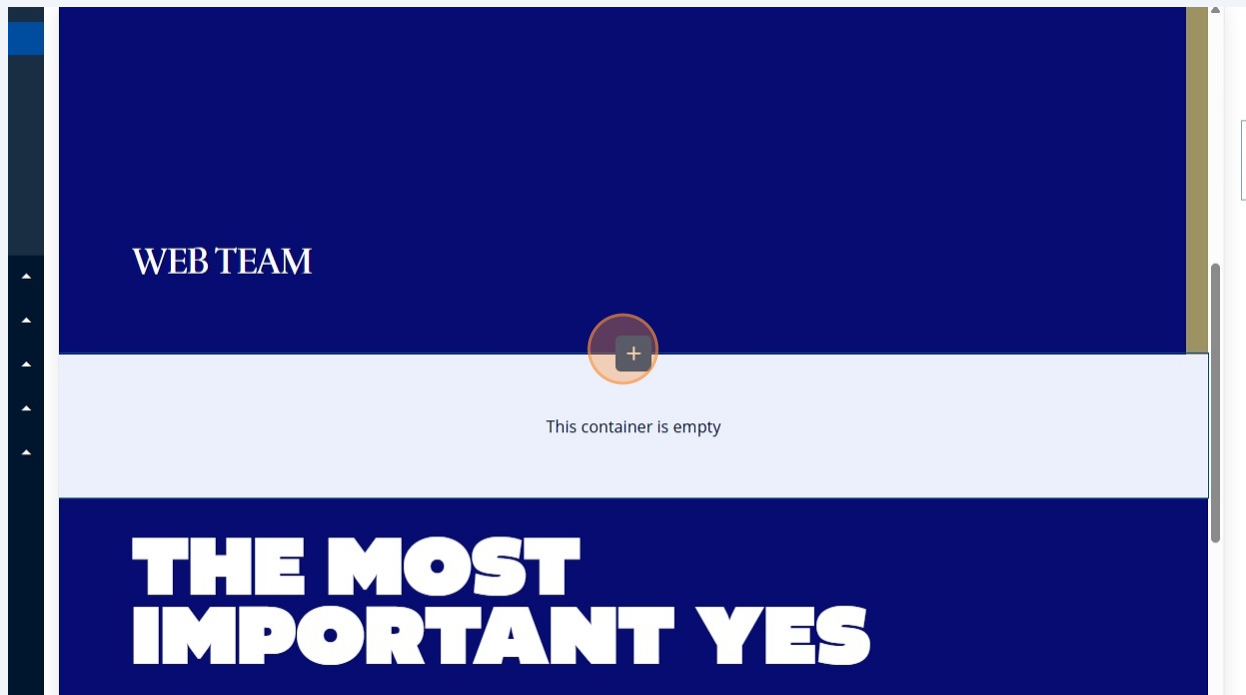

3 You'll enter edit mode for the page. Click here to close the Content Palette

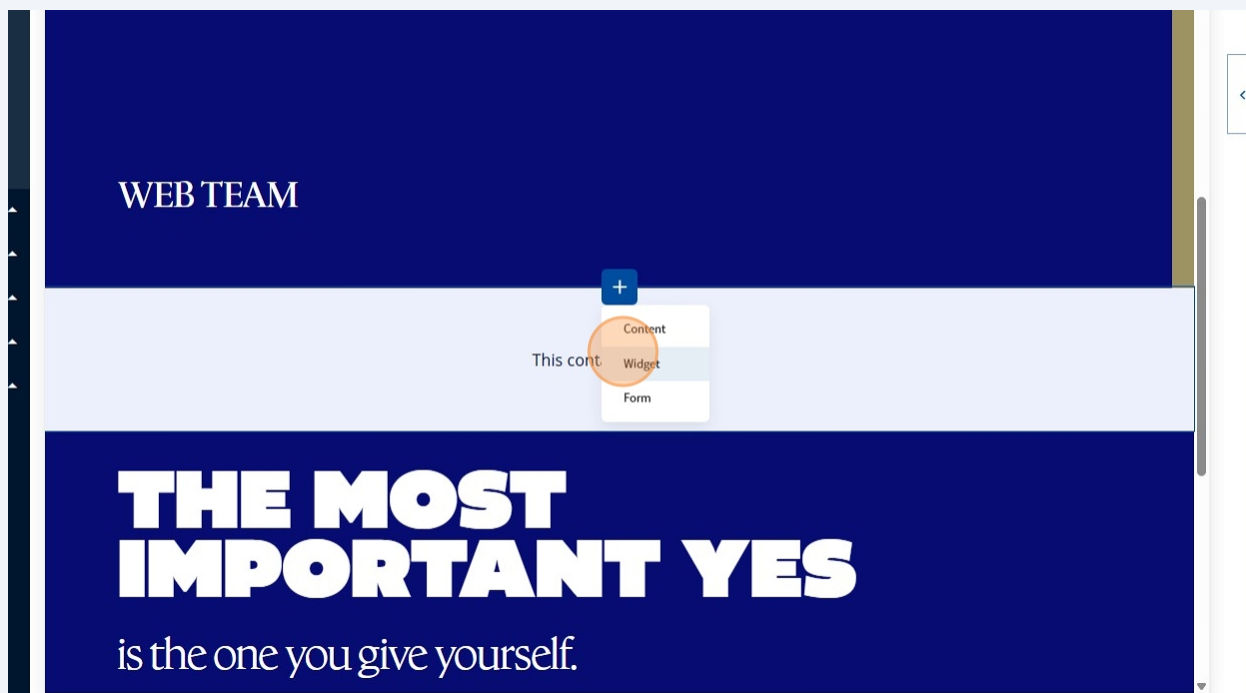

4

Scroll down to where you want the hero to live. Click the blue square with the plus sign.

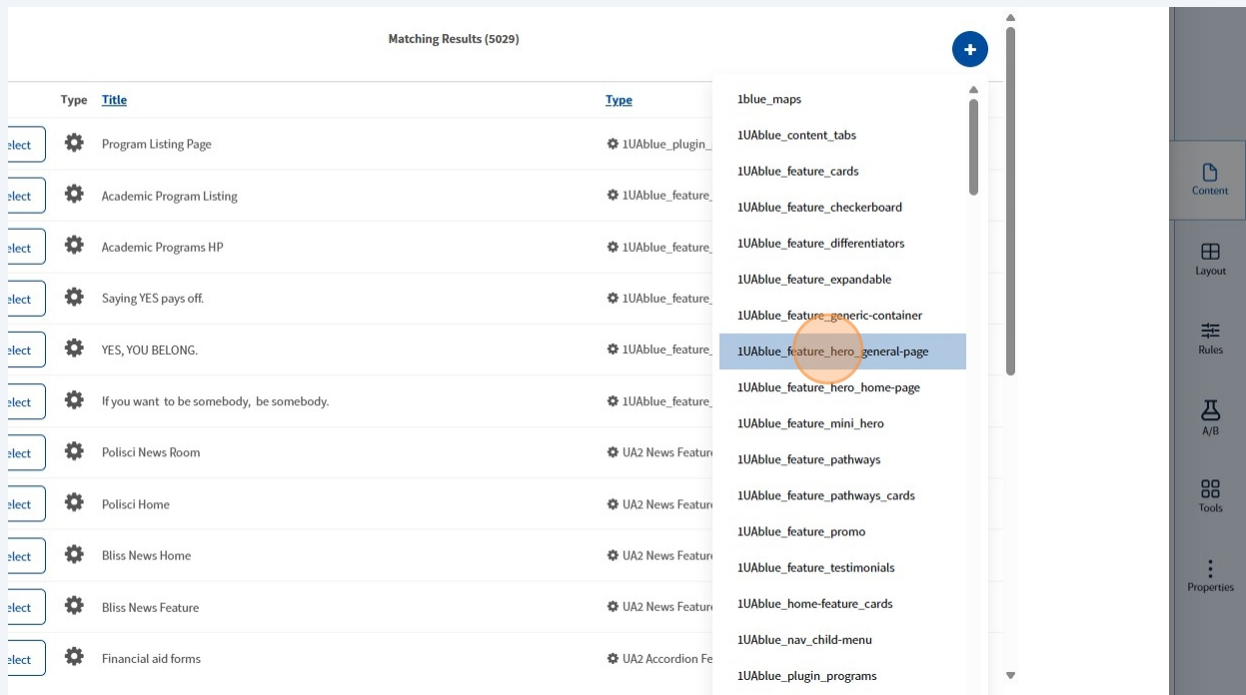

5

In the menu that opens, click "Widget"

6

Click the blue circle with the plus sign and select "1UAblue_feature_hero_general-page"

10 Type the text for the intro content.

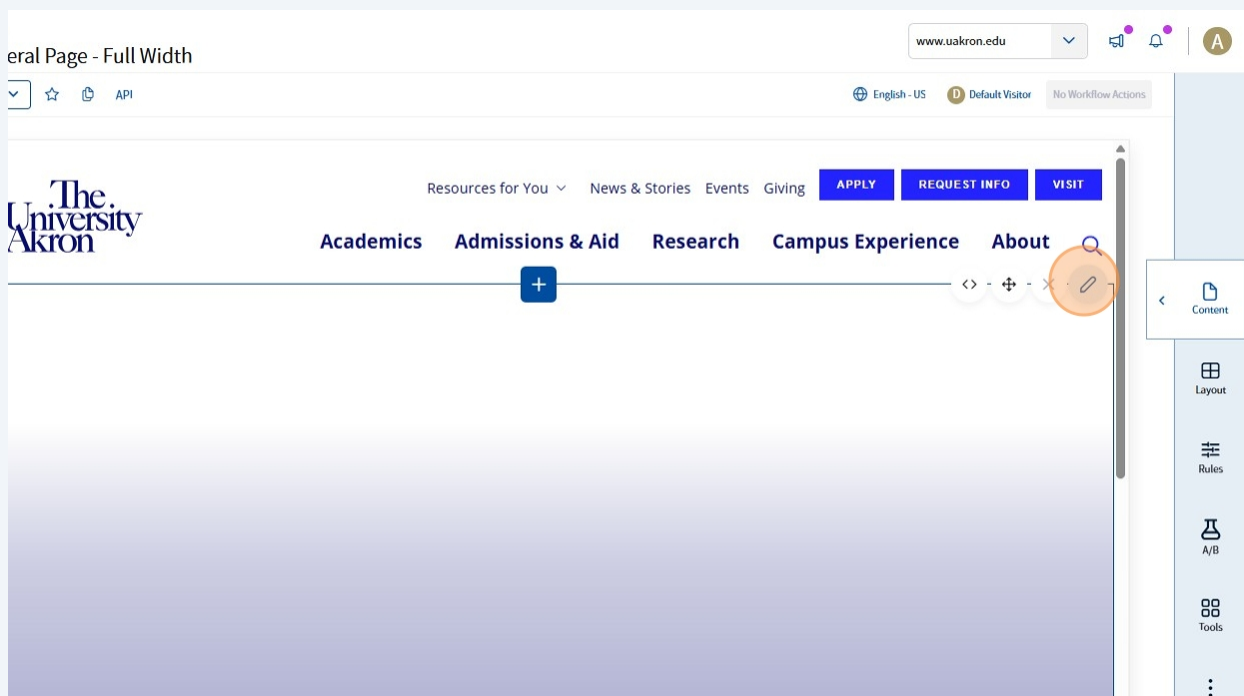

11 Before we can Relate new content, we'll need to save, exit the widget, and return. Click "Save".

12 Click the "x" to close the widget.

13 To re-enter the widget and relate the Child widgets, click the pencil icon.

14 To relate a media widget, click "Relate New Content",

The screenshot shows the dotCMS Content Editor interface. The top navigation bar includes 'CONTENT', 'PERMISSIONS', 'HISTORY', and 'REFERENCES'. The main content area has several fields: 'Widget Title' (containing 'Test Hero page for webteam'), 'Title' (containing 'Holding out for a...'), 'Media' (with a 'Relate' dropdown menu), 'Eyebrow' (containing 'Carefully raised'), and 'Intro Content' (containing 'This is what a hero looks like'). The 'Relate' dropdown menu is open, showing options: 'Relate' and 'Relate New Content'. The 'Relate New Content' option is highlighted with an orange circle. On the right side, there is a sidebar with 'Language' (English), 'Lock', 'Workflow' (Content Type, Workflow, Step, Assignee), and 'Assignee'.

15 Give this widget a title. (Not visible to the users)

The screenshot shows the dotCMS Content Editor interface. The top navigation bar includes 'CONTENT', 'VIDEO MEDIA', 'PERMISSIONS', and 'HISTORY'. The main content area has several fields: 'Title' (containing 'Hero Image'), 'Media Type' (containing 'General Media'), 'Name Key' (empty), 'Alt Tag' (empty), 'Image' (with a 'Browse...' button), and 'Optional URL' (empty). The 'Holding out for a...' widget is highlighted. On the right side, there is a sidebar with 'Language' (English (US)), 'Return to Holding out for a...', 'Save', 'Save / Publish', 'Workflow' (Content Type: 1UAblue_fe, Workflow: System Wor, Step: Published, Assignee: Nobody).

16 Add in the Alt-Text for the image.

The screenshot shows the 'CONTENT' tab of a CMS interface. The form includes the following fields and controls:

- Title***: A text input field containing 'Hero Image'.
- Media Type***: A dropdown menu set to 'General Media'.
- Name Key**: An empty text input field.
- Alt Tag***: A text input field containing 'This is a placeholder image with the word Hero'.
- Image**: A section with an empty text input field and a 'Browse...' button.
- Optional URL**: An empty text input field.

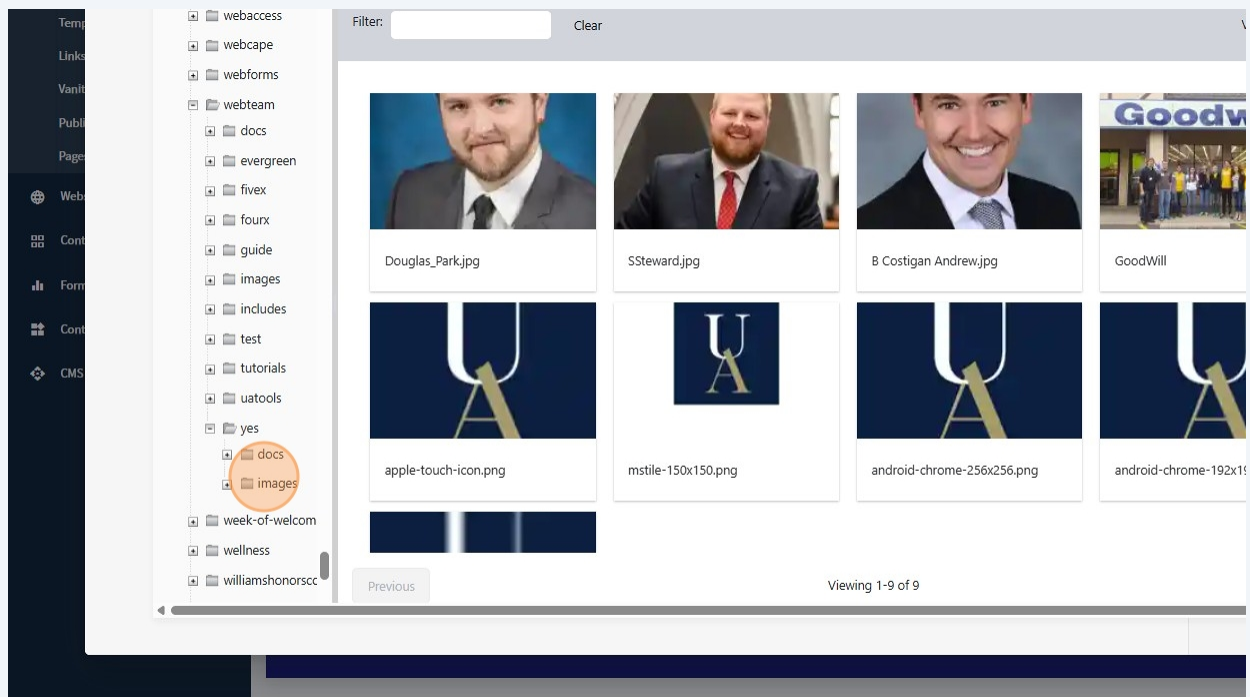

On the right side of the interface, there are two panels:

- Language**: A dropdown menu set to 'English (US)' and a 'Return to Holding out f' link.
- Workflow**: A section with the following details:
 - Content Type: 1UAblue_fe
 - Workflow: System Wor
 - Step: Published
 - Assignee: Nobody

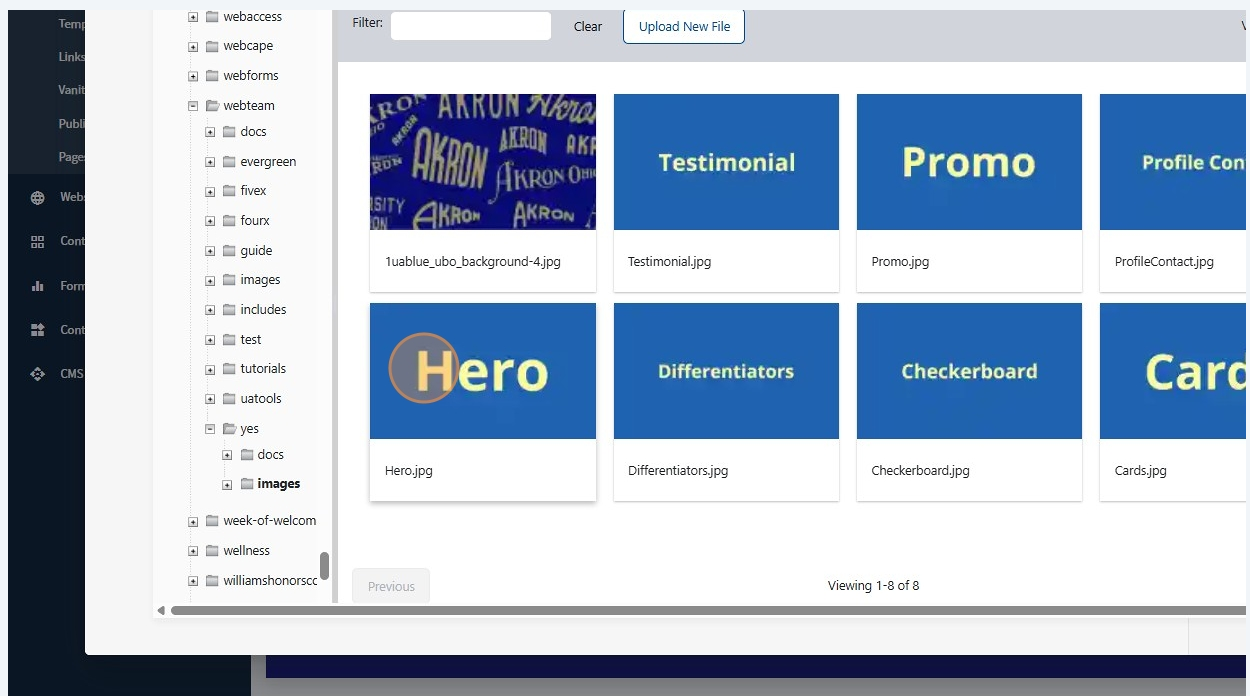

17 To select your image, click "Browse"

This screenshot is identical to the one in step 16, but with an orange circle highlighting the 'Browse...' button in the 'Image' section, indicating the next action to be taken.

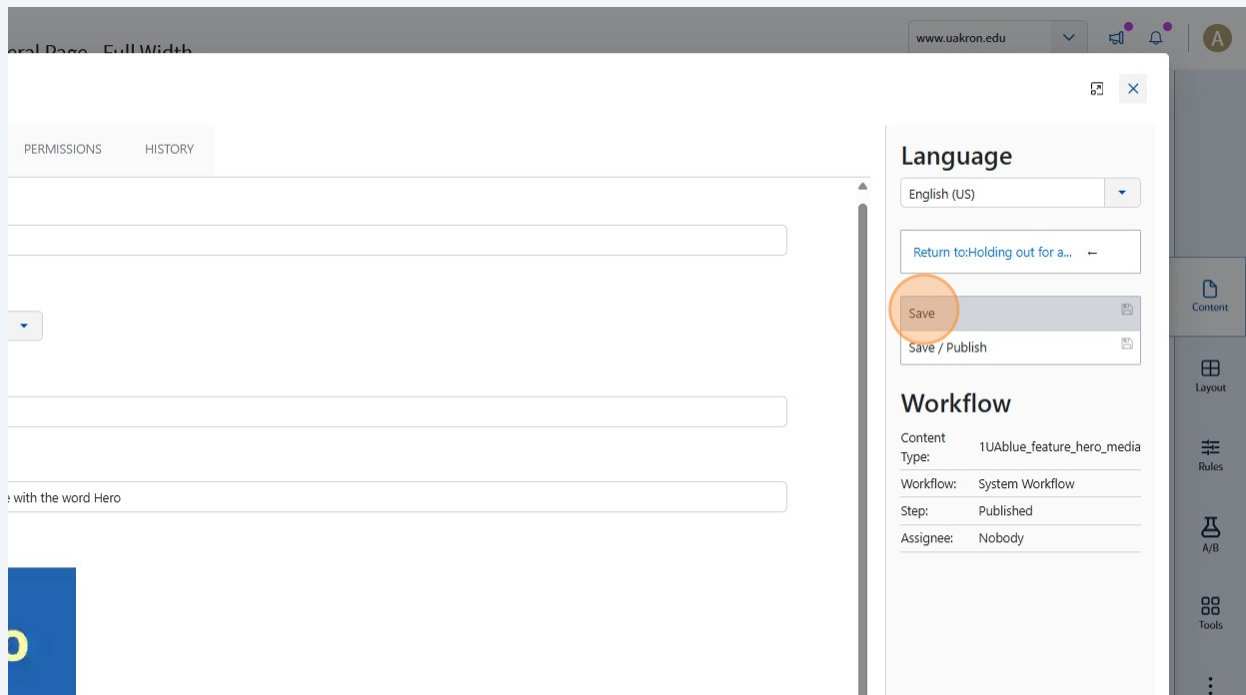

18 Navigate to your images folder.

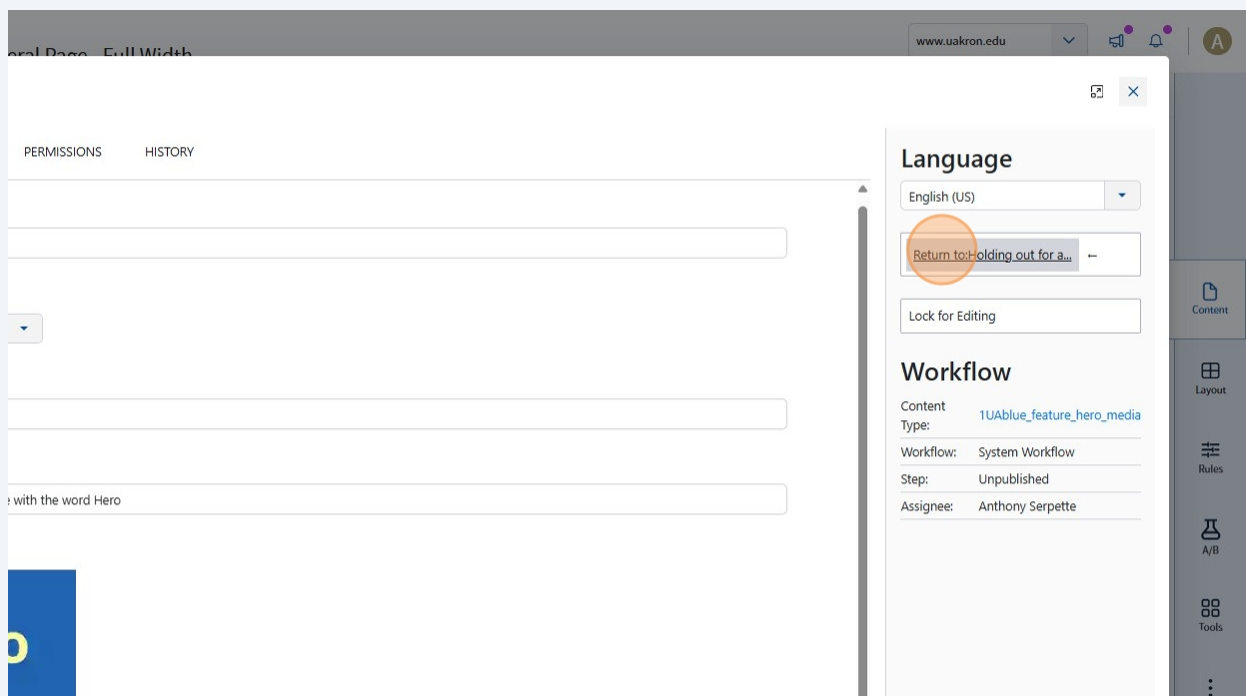

19 Select the image you want to use in the Hero.

20 Click "Save".

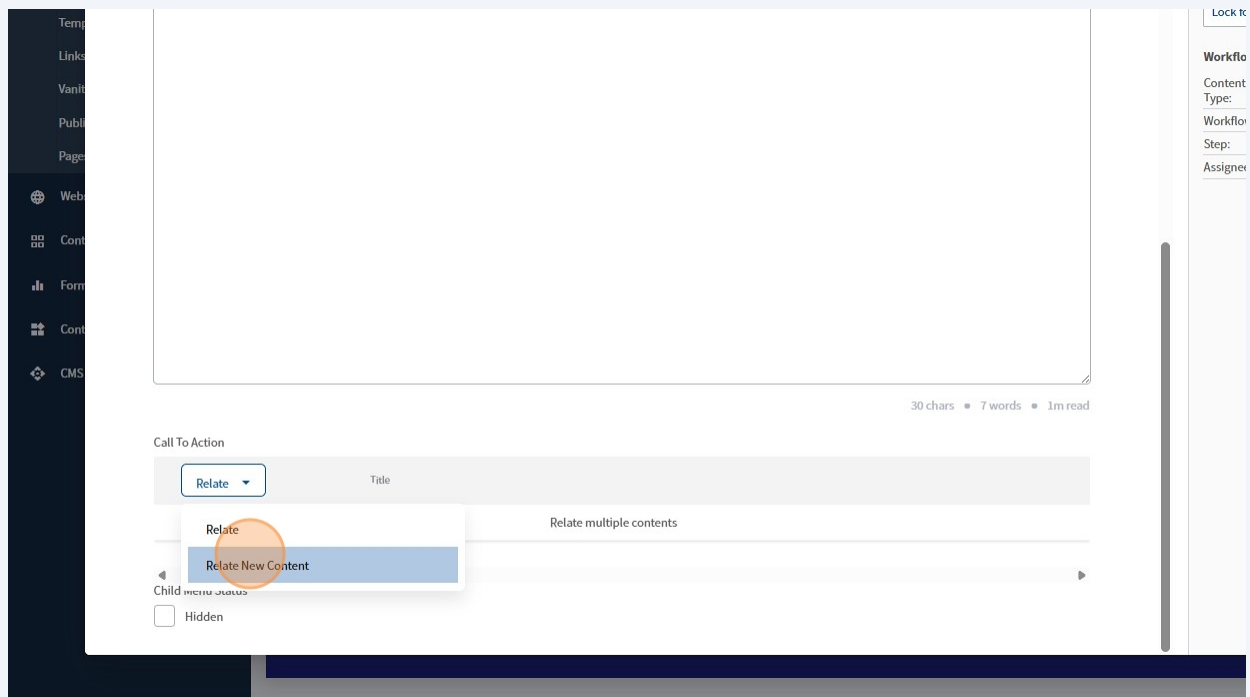

21 Click "Return to:" to go back to the main Hero widget

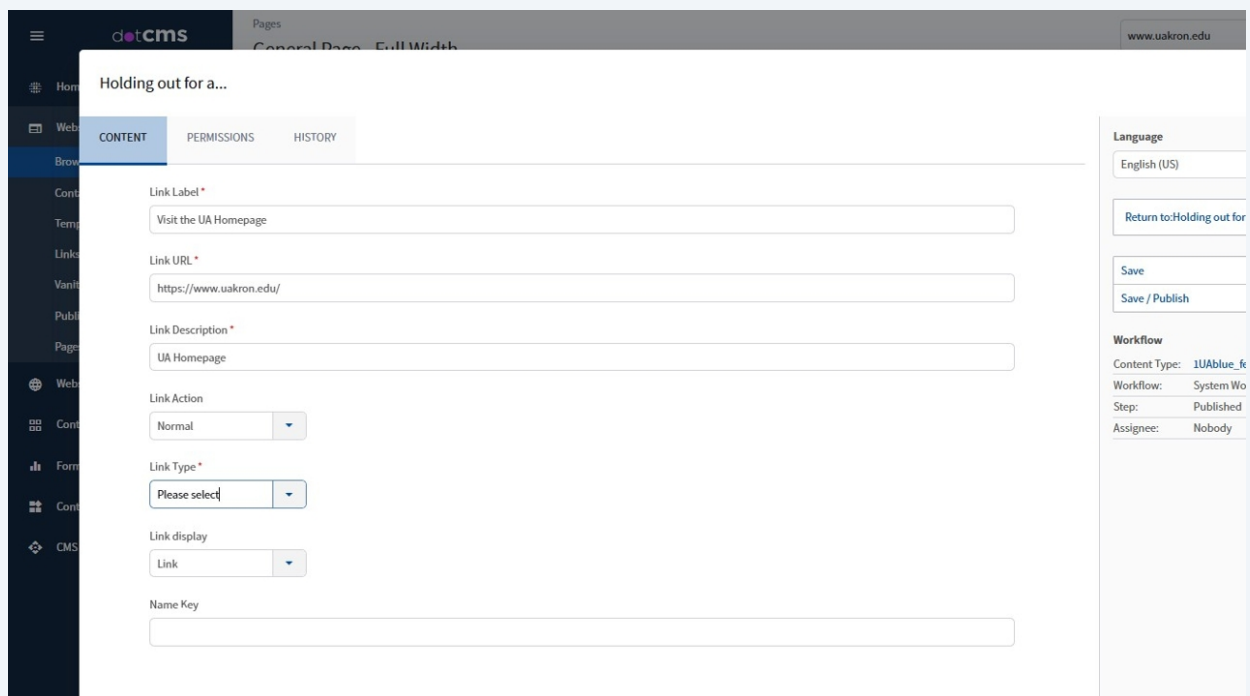

22

To add in a Call To Action (CTA) scroll down and click "Relate", then "Relate New Content".

23

Fill in the Link Label, the Link URL and the Link Description.

24 Use the drop down to select the link type.
