

Win \$100 or more!

It's soy easy with a great science fair project! The Ohio Soybean Council is awarding prize money for the best district and state projects using soybeans. What experiment will *you* set up to do some soybean science?

Soybeans are everywhere! Just look at the things you can explore:

- How do products containing soybeans help the environment and human health?
- Why are soybeans used to feed humans and animals?
- Do soybeans make a good fuel? or ink? or candle wax?
- Can we breed a better soybean?

OHIO ACADEMY OF SCIENCE

District Science Day Grades 5–12

Award: up to three \$100 awards in each of the 17 districts

OHIO ACADEMY OF SCIENCE

State Science Day Grades 5–12

Award: 1st place: \$1,000, 2nd place: \$500, 3rd place: \$250

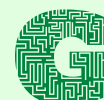

Team award: \$1000 to be split among team members

Interested in participating?

Visit the Ohio Academy of Science's website at ssd.ohiosci.org to register.

When you register, select the "Ohio Soybean Bioscience Award" as a Sponsored Scholarship & Award.
