B. Membership. Frank Thomas sent in his report on membership. As of the board meeting we had 373 active members which includes 58 new members and 315 paid memberships. There was no March/April scholarship report.
C. Political Action. Bob Gandee reported that the OCHER meeting will be next week in Columbus. Bob will be attending.

D. Benefits. No report.

E. Faculty Senate. Bob Gandee noted some highlights from the written report submitted by Ali Hajjafar (see written report below). Bob is serving on the University Council’s Athletic Committee and they recently met with UA’s Athletic Director (AD). The AD is concerned with the status of the university’s relationship with the community. The university is bringing in a speaker to address issues surrounding athletics. Bob will see if the Athletic Director might be able to speak at our October luncheon.

February Senate Report:

Chair Rich in his remarks talked about the committees that have submitted reports for the month of February. He suggested that the administrators form a task force including members from senate for the implementation of 5-star Friday and asked members of the Senate to let him know if they are willing to serve on it. He also suggested that the University reinstate the PhD Program in History.

The President in his remarks mentioned that he has received positive reactions surrounding 5-star Fridays and e-sports and that there will be a task force to work on the 5-star Friday concept. He said he has asked the State for monies for campus infrastructures, campus artscape replacements, and funds for renovations to ASEC, Buckingham, and Whitby as well as remodeling Crouse and Ayer Hall. He said that work is needed to respond to mandates from Columbus on forming 10 institutions into a consortium. He said we are talking with other 4-year Universities in the area to form an alliance for brainstorming how we can work together and look at administrative overlaps. He said the University anticipates a 29 million dollar deficit next year and this should be worked on. He said probably the 12 million dollars set aside this year and much more from our bank account might have to be used. He again noted the outsourcing of the recruitment and making a contract again for this year. He said the Admissions Office has rejected 800 applicants so far and that these students are encouraged to apply for our branch campuses. He said the webpage for e-sports is now active and he is encouraged by the response. We are now putting together the program with the new coach, Michael Fahey. He talked about summer semester and how it is budgeted. Finally he said starting Feb 12 the search committee would look at applications for Chief Academic Officer.

There were a lot of questions regarding his remarks.

The Provost in his remarks, talked about 5-star Friday, voluntary retirement, and RTP season that has begun. He said the textbook committee would meet in Columbus next week.

In committee reports, the course proposals brought by CRC were approved. APC submitted a motion regarding posthumous degrees. It was approved with some modification. The Honors College brought forward a proposal to change some requirements (including the change of credits of colloquiums from 2 to 3) in the program.
The Senate approved the proposal. CCTC and Athletics committees submitted written reports, which did not require vote for approval.

F. University & Community Service/Website. Dan Sheffer reported doing some routine tweaking of the website. The Special Events site has been redone.

G. Scholarship. No report.
