B. Membership. Frank Thomas reported that two e-mails and 2 US Mail notices have gone out to all remaining members who have not yet renewed their memberships. As of now, we have 387 active members with 130 of those being “new” retirees. Paid dues have been received from 257 members. Inactive members totaled 132. Frank provided address labels and letters for the Board to send a personal note to any unpaid member who they know personally urging them to renew.

C. Political Action. Dan Sheffer reported on the September OCHER meeting which he attended for Bob Gandee. STRS is getting feedback concerning the elimination of COLA. However, the health of our funding has improved due to this action. Discussion followed concerning whether or not COLA would be reinstituted and if so how it would function. Employer/Employee contribution rates were discussed as well as Alternate Retirement Plans (ARP) across Ohio institutions. UA has the lowest % of employees opting for ARP in the entire state.

D. Benefits. Linda Sugarman had no report.

E. Faculty Senate. Ali Hajjafar presented the following report:

Chair Saliga called the meeting to order. In her remarks, she introduced newly elected senators and talked about the officers that are to be elected later in the meeting. She expressed her dismay about the lack of shared governance in the decision making of phasing out about 80 programs as the result of Academic program review.

Secretary of the Executive Committee in his report talked about the meetings that they have had with themselves and with President and Provost. The subject of discussions included: Interim chairs, the future of the College of Education, the University’s budget and budget reductions, admission, part-time faculty benefits, four day schedule, the upcoming sesquicentennial, academic program review, appointment of members to the ad hoc strategic planning committee, curriculum proposal system, plans for Ballet Center and Martin Center, the University’s
mission, faculty hires, administrative review, athletics, and program recommendations approved by the Board of Trustees (BOT).

Most the remarks of President Green were around the academic program review and his involvement from the beginning as Dean of the College of Arts and Sciences to the end as interim president charged with doing something about it. He explained how he has reached the decision of phasing out some of the programs and taking his decision straight to the BOT. He explained why that was not a violation of shared governance. He accepted the responsibility of making the final call and the BOT accepted his decisions without alteration. He said if the faculty would like these decisions modified, the person they need to persuade is he. He said people ask him what if these decisions don’t pan out? He said his answer would be that an effective strategic planning process must allow for changes to curriculum. He said all of the phased out programs have significant weaknesses. If strategic planning can address these he might be disposed to reverse decisions. For the rest of his remarks, he described the strategic planning process and the fact that the University has structurally 45 million dollars deficit and it has to be resolved in three years.

Provost Ramsier in his remarks reported that some community colleges have started to offer four year Bachelor’s degrees; especially Stark State has proposed a BA degree in management accounting. There are eleven similar programs in NE Ohio. All the Deans of business colleges in NE Ohio submitted a co-signed letter. Because of this, the Chancellor has decided to reconsider the proposal and have discussions about duplication. He mentioned that UA has a dual admission agreement near signing with Stark State. He mentioned that the two plus two concept would become more and more important. He reported that enrollment is right on the projection so the budget numbers will hold. He said in 2018 the university has had 400 preparatory students. This year we have none. Some of such students were deferred to Wayne College. He urged the faculty to share study abroad ideas.

At this time Senate elections were conducted, and finally a few oral and written committee reports were presented.

After Ali’s formal report was given, an informal discussion ensued concerning the recent program cuts.
