REGULAR BUSINESS MEETING OF THE BOARD OF TRUSTEES

Mr. Bauer called the meeting to order at 2:10 p.m.

REPORT OF THE CHAIR

Congratulations to Fall 2017 Graduates

On behalf of the entire Board, Mr. Bauer reiterated hearty congratulations to the fall 2017 graduates of The University of Akron. He said that, on December 16, he and fellow Trustees had been honored to acknowledge over 1,200 success stories, resulting in achievements from associate to doctoral degrees, and that each is a point of continuing light and pride for this institution.

Day in the Life Program

In that same sentiment, Mr. Bauer said that he was very pleased that Undergraduate Student Government would again sponsor the “Day in the Life” program to take place prior to spring break this semester. Originally proposed by former and current Student Trustees Darnell Davis and Zachary Michel, that program provides opportunities for Board members to gain perspective by shadowing a University of Akron student on campus for all or part of a typical daily schedule. Having participated in the first program last spring, Mr. Bauer said that the experience had reminded him in a unique
way of “why we are here as Trustees.” He recommended that Board members take the opportunity and said that he looks forward to doing so himself again.

Faculty Senate and University Council Meetings

Mr. Bauer reported having attended the first University Council and Faculty Senate meetings of 2018 on January 23 and February 1, respectively, as well as the February University Council meeting held the prior day. He said that there is “plenty going on” within both Faculty Senate and University Council, and he encouraged any of his colleagues to join him in attending those meetings during the ensuing months.

Safety and Facilities Special Committee

Mr. Bauer said that the Board had received a comprehensive update from the Safety & Facilities Special Committee that morning. He highlighted some of what was mentioned during that discussion.

- First, beginning in January 2018, the University of Akron Police Department shift realignment had been formally implemented. This revised scheduling reallocated some of UA’s policing resources into the evening and overnight hours to better serve our students and the University community.

- Second, beginning the following week, the Ohio State Highway Patrol would re-establish a physical location in Summit County housed on campus in the building that had been the University’s former child development center. Mr. Bauer said that the Patrol appreciates the easy access to Route 8 and other areas within the County. On behalf of the Board, he welcomed the State Highway Patrol to the county, city, and University communities.

- Lastly, Mr. Bauer said that the University community could look forward to additional green space later this spring on the site of the former Grant Street residence townhomes and high rise, as well as on the site of the Plasma Center, which would be razed this spring.

Mr. Bauer said that these combined efforts and others that will follow are examples of the University taking proactive measures to make our campus and the surrounding community even safer. He thanked Trustee Adkins for chairing the Board’s Safety & Facilities Special Committee and Mr. Mortimer, Vice President for Finance and Administration/CFO, for the progress made. Mr. Bauer said that he looks forward to more good things from Trustee Adkins, Mr. Mortimer, and the Safety & Facilities Special Committee and acknowledged that it had been Trustee Adkins’ idea to establish the committee.

REPORT OF THE PRESIDENT (See Appendix C.)

REPORT OF THE STUDENT TRUSTEES

Mr. Thomas introduced student Nathan Hill (see Appendix D). Mr. Hill offered remarks to the Board regarding his University of Akron experience. He received a commemorative clock from Trustees.
Mr. Thomas reported on the Rethinking Race:

- The annual Rethinking Race program had commenced. Rethinking Race serves as a forum for the discussion, examination and improved understanding of race-related issues through films, performances, face-to-face conversations and keynote speakers. The mission of Rethinking Race is to engage the public with important topics such as diversity in the workplace and awareness of issues and culture. Along with a fellow student, Mr. Thomas had participated in the program by leading a discussion on the topic of Redefining the Expected from a Student’s Perspective.

Mr. Michel reported on the Day in the Life Initiative and the Student Trustee Application Process:

- Undergraduate Student Government had resumed for spring semester the Day in the Life initiative, which provides great opportunities to experience the classroom and campus through the eyes of a student. Chairman Bauer, and Trustees Adkins and Gingo had already provided availability to participate.

- The Student Trustee search committee had been convened, and the application process for the seat that would be vacant on June 30 was underway. The application period had opened on February 12 and would close approximately March 9. Two information sessions would be held in the Student Union for interested students. The selection committee would make its recommendation to the President by approximately Friday, March 23.

**ACTION ITEMS**

Mr. Bauer said that, because the Board uses a consent agenda, it would hear reports for each committee and would wait to hold one vote for all actions on the consent agenda. The Board would then vote on actions not listed on the consent agenda immediately after they were raised. All of the action and informational items in the Board materials had been discussed in detail during committee meetings earlier that day.

**CONSIDERATION OF MINUTES** ("Board of Trustees” Tab)  
presented by Chair Bauer

By consensus, the proposed action to approve the minutes of the December 6, 2017 Board meeting was placed on the consent agenda.

Mr. Bauer asked Mrs. Cole to read aloud the proposed resolution to name The University of Akron Student Union The Jean Hower Taber Student Union, and she invited Executive Director of the Student Union Anne Bruno to comment.

Mrs. Bruno expressed appreciation on behalf of students and herself for such a generous donation in memory of Mrs. Taber and the Hower family and said that she looks forward to the opportunity to help carry out that message through the naming of the Student Union building.

Mrs. Cole anticipated teaching the student body about Mrs. Taber and her life of philanthropy and what it can mean to one’s alma mater.

RESOLUTION 2-12-18: Pertaining to the Naming of The University of Akron Student Union 
in Honor of Jean Hower Taber

WHEREAS, Jean Hower Taber touched the lives of hundreds of students during her lifetime of 
service and philanthropy and, subsequent to her passing in 2017, changed the trajectory of The 
University of Akron through a record-making and transformative estate gift of more than $20 
million, supporting Hower House and scholarships in The Drs. Gary B. and Pamela S. Williams 
Honors College and the Department of Audiology; and

WHEREAS, Mrs. Taber’s family legacy is intertwined with Akron’s history and the University. 
Her great-grandfather, John H. Hower, was one of the founders of the Quaker Oats Company, and 
her grandfather, M. Otis Hower, graduated from the former Buchtel College. In 1970, the Hower 
family donated to the University the historic, 28-room Hower House mansion, filled with antiques 
and furnishings gathered by the Hower family during world travels. Through past donations 
totaling more than $7 million, Mrs. Taber continued her support of that campus treasure; and

WHEREAS, Mrs. Taber graduated from Hathaway Brown School, received a degree from Colby 
Jr. College and, in her youth, was a research technician at University Hospitals. Following World 
War II, she enlisted in the Red Cross and was stationed in Germany supporting the troops during 
the occupation; and

WHEREAS, Mrs. Taber, alongside her late husband, Benjamin Charles Taber, a prominent 
attorney, spent a lifetime volunteering and supporting important and worthwhile causes throughout 
Northeast Ohio including the Society of the Blind, the Cleveland Museum of Natural History 
where she was a Life Trustee, the Western Reserve Land Conservancy, and delivering meals-on-
wheels; and

WHEREAS, Mrs. Taber, a cherished family member of the University, who received an honorary 
doctorate from UA in 2004, passionately believed in the life-changing power of a college 
education and enjoyed helping others to achieve that goal; Now, Therefore,

BE IT RESOLVED That The University of Akron Student Union be named The Jean Hower Taber 
Student Union.
I want to update the Board on two significant initiatives that we have rolled out since the last Board meeting. As you are aware, back in December we launched our Esports Varsity team and club program. The world of esports is burgeoning in every sense of the word; it involves multiple participants playing video games in an online community. Both the playing and the watching have caught fire. Live audiences are watching video games such as League of Legends, Overwatch and Rocket League. There are sell-out crowds at Madison Square Garden and the Staples Center. NBA, major league baseball and major league soccer teams are buying in to esports leagues as well. Esports revenues last year totaled about $700 million and are anticipated to double within the next two years.

As we evaluated the collegiate landscape, we noticed that there were five other Division I universities that had adopted esports varsity teams, and it became our goal to be Number 6. We set up a dedicated website to announce and house our Esports Varsity team and club program. By getting in early and making that commitment, we were able to advertise our esports program to current and prospective students. To date, about 1,300 have signed on with their intent to engage in either our Esports Varsity team or our club program. We have announced the various games in which we will compete and plan to include even more games. We are looking at building some arenas to house our esports teams. Based on the strong demand, we plan to construct three arenas here on campus and have been working with the city to build a fourth in the Bounce space downtown.

A big part of this initiative is to engage esports with academics. We have made connections with our engineering and computer science students in terms of the hardware and networking that will be needed. We will be looking to our communications students to help out with broadcasting; graphic design students in terms of logos, uniforms, and the arena space; and the College of Health Professions in terms of professional trainers, sports psychologists and nutritionists. We held an open forum here at the University in order to strengthen those connections and to start to think about what we might be able to do in terms of certificates, degrees and the like. Between 80 and 90 of our University community, faculty and staff turned out excited to do that so we look forward to bringing new degrees and certificates for consideration by the Board going forward.

We made the announcement in December that we have hired a head coach and director of our esports program, Mr. Michael Fay. I have asked Michael to join us here today and, hopefully, say a few words. To help Michael, particularly with the demand that we are seeing, we are in the process of hiring an assistant director and a coordinator of our esports program. We will rely on students to serve as coaches and managers.

Michael has extensive experience in esports. A production director for esports competitions for Softlocke, he has provided commentary for esports tournaments, created video game content for platforms like YouTube, and recently earned a master’s degree in emergent media at Champlain College.

Michael, welcome to The University of Akron family. Would you like to offer a few words to the Board?
Mr. Fay:

“Hi, everyone; I’m Michael Fay. I would like to thank President Wilson and all the members of the Board for having me here. You know, eight years ago, when I was an undergrad, I spent four years trying to get a space for competitive gamers on my campus. Then I spent another four years after that creating my own opportunities for esports. I think that it is really incredible what we are doing here at the University now, actually establishing some recognized career tracks and learning opportunities surrounding esports. It has been really incredible already hearing the gratitude from the students with whom I have met who are so excited to feel the validation that is coming from the University, recognizing their passion and all the opportunities they have to learn through that passion. And so I am really excited about the program we are going to build. Thank you.”

We are very excited about the program and what Michael has been able to do to date. There have been non-stop meetings with interested parties; we have alums that are interested in engaging and getting involved. We have even had a couple of alums reach out and ask if they could come back and get another degree so they could participate in our program.

Five-Star Fridays

As you know, the other initiative that we have rolled out is our Five-Star Fridays. Last month, we announced plans to implement an innovative class schedule in fall 2018. Our four-day course scheduling is followed by Five-Star Fridays. Most of our classes are going to be shifting to a Monday-through-Thursday format. Students, particularly juniors and seniors but even all the way to our freshmen, will have more opportunities for experiential learning on Fridays, such as internships, co-ops, research, lab work and community service. Students, particularly freshmen and sophomores, will have opportunities here on campus for one-on-one meetings with faculty, advising, tutoring, and study groups. Many of our students commute and/or work part time so this will give them greater flexibility in their schedules. The feedback that I have been receiving thus far has truly been touching and incredible.

- One response came from the mother of one of our nursing students. She did not know how her daughter would be able to make her contact hours with the hospital on a five-day class schedule. She said that the four-day course schedule is a blessing that will allow her daughter to have Fridays, Saturdays and Sundays to engage.
- A representative whose employer has been a regular participant in UA career fairs also expressed appreciation. During a recent career event, he and his colleagues had been shocked by the low turnout, which they later learned was due to Civil Engineering mid-term exams being held on the same day, creating a conflict for students and precluding them from learning about job opportunities.

So whether in Nursing, Engineering, or our College of Education in terms of student teaching, we are really excited about the prospects.
The decision was reached after a detailed review with our Registrar’s office, a survey with Undergraduate Student Government’s assistance resulting in 5,000 responses, multiple consultations with Faculty Senate and University Council, and discussions with the colleges and administrative units. There will be some exceptions in terms of music, dance, art, and other programs. We will have labs, consistent with our experiential hands-on learning approach, on Fridays as well. The response truly has been positive and has generated some questions and a lot of really great attention. In the spirit of Five-Star Fridays, you can catch me on NBC Channel 3 news this Friday, February 16, at 7 p.m. I will give the weather report and talk about my background in meteorology as part of a Five-Star Friday of my own.

Academic News

The College of Business Administration recently has been reaccredited in both business and accounting by the Association to Advance Collegiate Schools of Business (AACSB). This organization is the foremost and longest serving international accrediting body for business schools. In fact, less than five percent of the 16,000 business schools worldwide have earned the AACSB accreditation, and fewer than two percent have both business and accounting accreditation from AACSB. This is a testament to the great work of the faculty, staff and administrators and the legacy and history of the College of Business Administration. Congratulations!

Near and dear to my heart, the School of Law is piloting a summer start program that will help to make law school more flexible and accessible for students. Law schools traditionally have been relegated to starting as a cohort in the fall. When I was dean, we decided to be creative in rolling out a spring start program. It has been fun to see that spring start program grow from 20 students the first year to 30 students last year, and this year we had 40 students in our spring start program. The program continues to grow, continues to be a strong cohort, and so along those lines we decided to provide even more flexibility by starting in the summer. In what may be a one-of-its-kind program, J.D. students can enter in May, and they can take two first-year courses in smaller class sections during the summer, giving them a head start on graduation requirements. The program is on a one-year trial basis. It will accommodate up to 30 new students, and it will include up to $2,500 in scholarship assistance to defray summer tuition costs. Congratulations to Dean C. J. Peters and all of his colleagues in the School of Law. We appreciate their innovative thinking and enthusiasm.

Fundraising

We talked about the uptick in fundraising earlier during this morning’s committee meetings. “Hats off” to Kim Cole, Vice President of Development and her team as our donations this year, year-on-year, are up by about 57 percent. New donors may be closer to 50 percent. We appreciate the efforts there.

I spent last week in Florida, where I welcomed participants to our 12th-annual School of Law Winter Institute in Naples. Together with Vice President Cole and Board Chair Rollie Bauer, who joined us for one of the events, it was a great time to visit with alumni and donors but also an opportunity for supporters of the School of Law and even the local community to obtain continuing legal education.
APPENDIX C: REPORT OF THE PRESIDENT, Page 4

Among the highlights of that trip was a gathering held at the beautiful home of Jim and Gail McCready in Naples to raise funds for the Making a Difference Moving Forward scholarship campaign. That is a campaign that I had rolled out, together with the Department of Development, at the start of my tenure, and we have raised $9.1 million with $11 million remaining to reach our $20 million goal. More than 80 people attended the McCready event, and on the previous night we had about 100 alumni and supporters attend another event. I appreciate everyone’s participation.

We also recently received another gift of scholarship support. Last month we established the Peter A. and Carol J. Kitarich Endowed Scholarship Fund created through a $160,000 gift from the estate of June Kitarich. The gift was presented by her nephew, John D. Crabtree, a 1972 alumnus, and his wife, Kathleen Crabtree. We are very grateful for the generosity of June Kitarich and many others like her who are helping our students to achieve their dreams.

Faculty Achievements

I would like to briefly acknowledge just a few of the notable recent achievements of our faculty.

Dr. Matthew Becker, the W. Gerald Austen Endowed Chair of Polymer Science and Polymer Engineering has received a $2 million grant from the State of Ohio Third Frontier Commission. This award supports research into a non-opiate degradable polymer mesh that could control post-surgical pain while helping patients to avoid potential addiction to pain medication. These degradable polymer platforms have been exclusively licensed by 21MedTech in the largest tech transfer agreement in UA history.

Dr. Sucharita Ghosh, associate professor of economics has received her second Fulbright Research Scholar Award and will work and teach in Italy this spring.

Ms. Nicola Kille, executive director of the Center for International Students and Scholars has received the Fulbright Taiwan International Educators Award and will spend two weeks in Taiwan in March furthering the mission of our International Center.

Dr. John Roncone, associate professor and program coordinator of Sport Science and Wellness Education at Wayne College has received the 2018 Meritorious Award from the Society of Health and Physical Educators – American Midwest District.

Dr. Bryan Vogt, professor in the Department of Polymer Engineering has received the Morand Lambla Award, which recognizes outstanding young researchers in polymer processing, by the 33rd International Conference of the Polymer Processing Society.

The University of Akron’s student ice carving team, under the leadership of Coach Brad Smith, professor in the Hospitality Management program, placed second in the National Collegiate Ice Carving Championship in Frankenmuth, Michigan, last month.

Two faculty members, Carolyn Dessin, the Aileen McMurray Trusler Professor of Law and Julie Cajigas, associate professor of practice in Communications, performed at Carnegie Hall last month as members of the Cleveland Orchestra Chorus.
We truly have faculty and students who are doing wonderful things.

Athletics

I am pleased to report that five student-athletes from last semester’s fall sports teams were chosen as Mid-American Conference Distinguished Scholar Athletes. The candidate pool for this honor is limited to students already on the Academic All-MAC Teams with at least a 3.2 cumulative GPA who have participated in at least 50 percent of the contests scheduled for their sport. Faculty athletic representatives then choose from among these individuals to identify the “best of the best” as Distinguished Scholar Athletes. Marc Migliozzi and Nick Stricklen of the Men’s Cross-country team were selected, as well as Stuart Holthusen of the Men’s Soccer team, Sydney Schipani of the Women’s Soccer team, and Aubrey Kozer of the Women’s Volleyball team. Congratulations to all.

Rethinking Race

In closing, I want to congratulate Jolene Lane, chief diversity officer and vice president for Inclusion and Equity, and all of her colleagues for organizing another outstanding Rethinking Race forum. This year, the annual event began on February 2 and will conclude this Friday, February 16. More than 50 events on campus and in the community will have taken place. In fact, my wife Noriko and I will participate in one event tonight and another tomorrow night. Tonight, we will lead a discussion about redefining society’s expectations of people; tomorrow, we will lead a conversation about interracial couples on a panel to examine the ideas and realities of our relationships and the wonderful relationship that I have enjoyed with my wife over the last 28 years. We can take pride in many features of our University family, and the Rethinking Race forum, now in its 11th year, is certainly chief among them.

INTRODUCTION

This Voluntary Early Retirement Incentive Plan (“Plan”) document reflects the intent of The University of Akron (the “University”) to offer a program to its Eligible Employees under which a qualifying employee, in consideration for voluntary relinquishment of employment under the terms provided herein, may receive payments or other incentives.

Under the Plan, the University promises to pay the benefits described herein to, or on behalf of an Eligible Employee (defined herein) who agrees to separate from service with the University by May 31, 2018 and fulfills his or her contractual obligations as set forth in the Separation Agreement and Release Form signed by the Eligible Employee. Failure to fulfill contractual obligations set forth in the Separation Agreement and Release Form will result in forfeiture of benefits under the Plan. Disability or death is not considered a lack of fulfillment of contractual benefits, and does not preclude the Employee or beneficiary from receiving benefits under the Plan.

This Plan is not itself a retirement Plan, and is not intended to provide retirement income, although it may utilize a retirement plan to receive and disburse payments under the Plan. This Plan is intended to qualify as a severance pay plan as defined under Code Section 457(e)(11) and as a “window Plan” under Code Section 409A. It does not replace or alter the retirement plans sponsored by the University. Thus, an election to end employment with the University and to receive payments under this Plan will not change benefits provided under a University retirement Plan which an electing faculty member may be eligible to receive.

An Eligible Employee, as defined in Section 1 of the Plan, may make an election to participate in this Plan during the Window Period.

3. Date of Separation

To participate in the Plan, an Eligible Employee must agree to separate from service with the University. Eligible Employees who elect to participate in the Plan must have an Exit Date on or before May 31, 2018. Notwithstanding the foregoing, the University, in its sole discretion, may determine it is in the best interest of the University for certain Eligible Employees to remain with the University later than May 31, 2018. In that case, the University, in its sole discretion, may request that an Eligible Employee agree to a later Exit Date and may request that the Eligible Employee sign a separate agreement acknowledging this later Exit Date and setting forth...
the timing of the Separation Payment. In no event will any Eligible Employee’s Exit Date be later than May 31, 2019.

Following the Eligible Employee’s Exit Date, the Eligible Employee is free to accept full or part-time employment with any other employer; provided, however, the Eligible Employee electing to participate in the Plan waives any right to rehire or reinstatement with the University. Any future employment of the Eligible Employee with the University will be at the sole discretion of the University.

4. Plan Benefits

Eligible Employees who make an election to separate from service by May 31, 2018, shall receive the following benefits under the Plan:

(a) A payment equal to 50% of his or her Base Rate of Pay plus a payment equal to 5% of Base Rate of Pay for each full year of Service with the University in excess of 15 years (the “Separation Payment”).

Forty Percent (40%) of the total cash value of the Separation Payment shall be paid directly to the Eligible Employee no later than July 31, 2018 (the “Cash Payment”). The remaining sixty percent (60%) of the total cash value of the Separation Payment shall be paid to the Eligible Employee’s account in the University’s 403(b) Plan (“University 403(b) Plan”), in substantially equal installments over three years (“403(b) Plan Installment Payments”). The first payment shall be made to the University 403(b) Plan in July 2019. The second payment shall be made to the University 403(b) Plan in July 2020. The third payment shall be made to the University 403(b) Plan in July 2021.

Each Eligible Employee who has made an approved election to participate in the Plan and who does not have a University 403(b) Plan account shall create an account on or before May 31, 2019. Otherwise, the Eligible Employee will forfeit his or her right to all University 403(b) plan benefit payments provided under this Subsection (a).

Notwithstanding the foregoing, the total value of the Separation Payment provided under this Subsection (a) shall not exceed the lesser of (1) $100,000 or (2) 100% of the Eligible Employee’s Base Rate of Pay.
APPENDIX E: EXHIBIT A OF RESOLUTION 2-11-18, Page 5

(b) Reimbursement from a Health Reimbursement Arrangement (“HRA”), to be used to cover eligible medical expenses incurred by the Eligible Employee and his/her spouse, dependents, and children who are under age 26. Reimbursement shall be for medical expenses incurred during the four year period beginning July 1, 2018 and ending June 30, 2022.

The University shall credit each Eligible Employee’s HRA $4,000 on July 1, 2018, July 1, 2019, July 1, 2020, and July 1, 2021. An Eligible Employee’s HRA shall not be credited with earnings at any time. Any balance remaining at each June 30 of 2019, 2020, and 2021 shall carry over to the following HRA plan year. No amounts shall carry over beyond June 30, 2022. Only medical expenses incurred prior to June 30, 2022 may be reimbursed by the HRA provided the Eligible Employee submits such medical expenses for reimbursement within ninety (90) days after June 30, 2022. Any amounts remaining shall be forfeited. Total reimbursements from the HRA shall not exceed $16,000.

Notwithstanding any other provision of the Plan to the contrary, HRA contributions shall be made in accordance with the terms of the applicable HRA plan document, the Code, and other applicable legal guidelines. To the extent there is a conflict between the terms of the HRA plan document and the terms of this Plan document, the terms of the HRA plan document shall control.

Participation in and receipt of any and all other retirement plans and benefits offered to an Eligible Employee shall remain unchanged.

5. Election

An Eligible Employee meeting the eligibility requirements of Section 2 may participate in this Plan by making an election to do so. The election to participate in the Plan is subject to the following terms and conditions.

(a) The election is completely voluntary.

(b) The election period shall be 47 calendar days and, unless determined otherwise by the University in order to provide for proper communication of the Plan, shall begin as of February 1, 2018 and close on March 20, 2018 (“Window Period”). All Election Forms and Separation Agreement and Release Form must be delivered in person or postmarked via first class U.S. mail to Talent Development & Human Resources of the University by March 20, 2018.
APPENDIX E: EXHIBIT A OF RESOLUTION 2-11-18, Page 6

(c) An election is deemed made upon receipt by the Talent Development & Human Resources Office of the University of a signed copy of the Election Form and Separation Agreement and Release Form, provided that such election is timely made pursuant to Subsection (b) of this Section 5.

(d) Except as provided in Subsections (e) and (f) of this Section 5, once made, the election cannot be withdrawn or modified by the Eligible Employee or the University.

(e) The Eligible Employee shall have seven (7) calendar days from the date he or she postmarks or hand delivers the Election Form to revoke the Eligible Employee’s decision to participate in the Plan (the “Revocation Period”). A decision to revoke an Eligible Employee’s election to participate in the Plan must be made in writing to Talent Development & Human Resources and delivered in person or via first class U.S. mail to Talent Development & Human Resources no later than the last day of the Revocation Period.

(f) An Eligible Employee who fails to submit an Election Form or a Separation Agreement and Release Form within the Window Period shall be considered to have elected not to participate in the Plan.

Notwithstanding anything herein to the contrary, the Eligible Employee’s designation of an Exit Date shall not create any contract entitling the Eligible Employee to work through the specified Exit Date, and the University continues to reserve the right to terminate or lay-off an Eligible Employee in accordance with applicable law and, for bargaining unit faculty members, in accordance with the Collective Bargaining Agreement between The University of Akron and the American Association of University Professors (“AAUP”). However, if an Eligible Employee who has elected to participate in the Plan should be laid-off or otherwise terminated without Cause, he or she shall receive the same Plan benefits that would have applied had he or she continued to work (or continued on approved leave) until the agreed to Exit Date under the Plan.

The Election Form and Separation and Release Agreement Form will be provided to each Eligible Employee.

6. Effect of Plan Election

This Plan is not intended to provide retirement income, nor does it replace or alter the retirement plans sponsored by the University. The election to end employment with the University and to receive payments under this Plan will not change benefits provided under the University retirement Plan that an electing Eligible Employee may otherwise be eligible to receive.
7. Death or Disability

If the Eligible Employee has filed a written election to participate in the Plan and dies before receiving all benefits under Section 4(a) of the Plan, those payments shall be made as follows:

(a) The unpaid Cash Payment shall be made directly to the beneficiary named on the Eligible Employee’s University-provided life insurance benefit on the same schedule that would have applied had the Eligible Employee survived. If the Eligible Employee has not obtained University-provided life insurance, then the Cash Payment will be paid to the Eligible Employee’s surviving spouse, and if the Eligible Employee does not have a surviving spouse, the Cash Payment shall be paid to the Eligible Employee’s estate.

(b) Any unpaid 403(b) Plan Annual Installment Payments will be made directly to the Eligible Employee’s beneficiary under the University 403(b) Plan in a single lump sum payment. This lump sum payment will be taxable to the beneficiary.

With respect to HRA contributions made pursuant to Section 4(b) of the Plan, if an Eligible Employee who files an election to participate dies before his or her Exit Date (or after his or her Exit Date, but before receiving all reimbursements eligible under Section 4(b)), the availability and amount of post-death HRA contributions shall be governed under and subject to the terms of the HRA plan document (and, if provided, shall generally be available only to reimburse medical expenses incurred by the Eligible Employee’s spouse, dependents, and children who are under age 26). Further, the HRA is considered a group health plan and is therefore subject to the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended (“COBRA”). If there are any contributions remaining in an Eligible Employee’s HRA account upon his or her death, the Eligible Employee’s surviving spouse will be offered the opportunity to continue coverage under COBRA. If the Eligible Employee’s surviving spouse elects COBRA, the surviving spouse will be able to continue accessing any remaining contributions already in the HRA account for up to thirty-six (36) months following the Eligible Employee’s death.

The University may condition payment pursuant to Section 4 upon proper proof or documentation submitted to and accepted by the University establishing the beneficiary’s identity or legal entitlement to be paid.

If the Eligible Employee has filed a written election to participate in the Plan and becomes disabled (so that in the opinion of a physician, acceptable to the University, the Eligible Employee will be unable to return to full-time work prior to the agreed Exit Date) then the Eligible Employee shall receive Plan benefits on the same schedule that would have applied had he or she
continued to work (or continued on approved leave) until the agreed Exit Date under the Plan. An Eligible Employee who becomes disabled after filing an election to participate in the Plan will not be able to revoke that election after the close of the Window Period and the Revocation Period have passed.

8. Divorce

Eligible Employees shall not have the right to assign, transfer, pledge, or otherwise convey the right to receive any amount or payments which may become due under this Plan. Any such attempted assignment, transfer, pledge, or other conveyance shall not be recognized by the University. To the extent the Eligible Employee attempts to assign a payment that will be made to the University 403(b) Plan or the HRA, the University 403(b) Plan and HRA plan document’s provision on assignment shall govern.

9. Additional Conditions

As a condition of participation in the Plan, and in consideration of benefits to be received under the Plan, an Eligible Employee shall be required to sign a Separation Agreement and Release Form which waives all future employment rights and property rights, all entitlement to future wage and benefit increases, and all rights to participate in any University-sponsored benefit plans (other than the right to payments under this Plan and the right to purchase continuation of health care coverage as is required under applicable federal law). The University and/or Board of Trustees reserve the right to offer or not offer similar plans in the future, without obligation to those electing this Plan.

An Eligible Employee who wishes to elect to participate in the Plan shall be required to execute and to deliver to Talent Development & Human Resources of the University all of the required documents before the end of the Window Period. Documents will be considered delivered to Talent Development & Human Resources of the University if they are delivered in person or sent via first class U.S. Mail and postmarked before the end of the Window Period.

10. Amendment or Termination of Plan

The University, at its discretion, may amend or terminate this Plan, provided that such amendment or termination shall not change any rights or interests of any Eligible Employee who has made an election under it prior to such amendment or termination.

11. Code Sections 457 and 409A

This Plan is intended to qualify as a severance pay plan under Code Section 457(e)(11) and a “window Plan” under Section 409A so as to not constitute deferred compensation under
Code Sections 409A, 457(b), and 457(f). In no event may the University or an Eligible Employee accelerate or delay payment or the Exit Date in a manner inconsistent with this intent. The Plan shall be interpreted and administered in a manner consistent with this intent. Amounts payable under this Plan upon retirement, termination, or any similar term shall be payable only when the Eligible Employee incurs a “separation from service” as defined under Code Section 409A. Each payment of benefits under this Plan is intended to constitute separate payments for purposes of Code Section 409A.
Pursuant to Section 3 of the Voluntary Early Retirement Incentive Program (the “Plan”), the University may determine, in its sole discretion, that it is in the best interest of the University to extend an Eligible Employee’s Exit Date past May 31, 2018. The University has so determined that it is in the best interest of the University to extend the Exit Date of _______________, an Eligible Employee who has elected to participate in the Plan (the “Employee”).

In exchange for the mutual consideration set forth in the Plan and this Agreement, the University and the Employee agree that the Employee’s Exit Date under the Plan shall be ___________ [insert date on or before May 31, 2019]. The Employee shall receive the Cash Payment under the Plan on or before ___________ [insert date of payment], which shall be no later than July 31, 2019. The Employee shall receive the 403(b) Plan Installment Payments in three substantially equal annual installments, with the first installment to be paid ___________ [insert date no later than July 31, 2020], the second installment to be paid [insert date no later than July 31, 2021], and the third installment to be paid [insert date no later than July 31, 2022].

All other terms of the Plan other than those set forth above shall apply. Any capitalized term in this Agreement shall have the meaning set forth in the Plan document.

A stipend (currently calculated as 1/11th of the converted salary) is awarded for assuming the additional responsibilities of a Department/School Chair. 1/10th of the stipend is converted to base each year that the individual serves as a Department/School Chair.</td>

<tr>
<td>Job Audit/Reclassification</td>
<td>Under University Rule 3359-25-10 the University may initiate audits and reviews of positions and classifications within the approved University Classified (3359-25-06) and Unclassified (3359-25-07) classification plans. In addition, employees may submit a request to determine if their current position is appropriately classified. The employee submits a Position Description Audit Questionnaire (PDAQ) to their immediate supervisor to initiate the job audit process. The immediate supervisor and second level supervisor are required to review and approve the information submitted on the PDAQ. Once the PDAQ is approved, it is submitted to the Classification Unit in Talent Development &amp; Human Resources. The Classification Unit will review the PDAQ and determine if the position is appropriately classified or not. If the Classification Unit determines that the position is not classified correctly, it will provide a recommendation to change the classification. The recommendation will be reviewed and approved by the employee’s management up to and including the appropriate Vice President. The approved recommendation will then be submitted to the University’s Board of Trustees for approval.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Leave Without Compensation  If an employee is unable to work due to a documented medical condition or for other approved reasons and they have exhausted all accrued sick leave, vacation leave and compensatory time that they are entitled to use, the employee may continue their approved absence from work without pay and will retain status as a University employee.

Market Increase  The Classification unit in Talent Development & Human Resources will, upon request from a dean or vice president, conduct a market evaluation of a position or positions to determine if the University is providing an appropriate level of compensation. If it is determined that the current level of compensation is below the established market, a recommendation will be made to adjust the current level of compensation.

Merit Increase  Increase in pay granted for meeting established performance criteria.

Non-Renewal  Separation of employment of a Contract Professional employee without cause in accordance with the requirements established in University Rule 3359-22-01. The University is required to provide notice in writing to the affected Contract Professional employee. If the individual has two years or less service with the University, they will receive three months’ notice. If the individual has more than two years of service, six months’ notice is required.

Offline Salary Adjustment  Increase in salary that occurs outside of annual salary review process. Recommendations for offline salary adjustments are submitted by the appropriate Vice President to Talent Development & Human Resources for review and approval. Offline salary adjustments are normally recommended when specific market (internal or external) or equity (internal) issues exist with an individual’s salary. Offline increases may also be recommended as a result of a reorganization involving a change in responsibilities.

Probationary Removal  Classified civil service employees are required to serve and successfully complete a probationary period following any initial appointment into a classified civil service position. If an employee’s service is found to be unsatisfactory, the employee may be removed from the position at any time during the probationary period. The length of the probationary period is 120 days for classified civil service employees/CWA bargaining-unit employees and one year for Police Officers in the FOP bargaining unit. A probationary classified civil service employee duly removed for unsatisfactory service does not have the right to appeal the removal to the State Personnel Board of Review. A probationary bargaining unit employee is not permitted to appeal the removal decision under the terms of the collective bargaining agreements.
| **Promotion** | The movement of an employee from one position to another budgeted position at a higher classification and pay range; or a higher salary where a pay range does not exist. The former position becomes vacant. |
| **Resignation** | A voluntary termination of employment. |
| **Salary Basis Change** | A change in appointment status for an employee, 12-month to 9-month or vice-versa. |
| **Status Change** | A change in pay group, job family or job function. |
| **Stipend** | Contract Professional and non-bargaining unit staff employees may receive a temporary stipend for substantial increases in responsibility for activities outside of the normal scope of the employee’s assigned classification (University Rule 3359-11-12.1). Full-time Faculty may receive a stipend for primarily administrative functions requiring substantial increases in responsibility and for activities not included in the ordinary load of teaching, research, and professional service for full-time faculty (University Rule 3359-11-12). |
| **Supplemental** | Additional compensation provided for completion of assigned job responsibilities. |
| **Temporary Appointment** | An appointment for a limited period of time with a specific beginning and ending date. |
| **Tenure Change** | A change to the date for tenure eligibility for a full-time faculty member in a tenure-track position. |
| **Title Change** | An employee remains in their budgeted position, but the title changes and there may be an increase in salary. No vacancy is created by the move. |
| **Transfer** | Lateral move of an employee from one department to another department, where the employee stays in the same classification. |
| **Training/Apprenticeship** | The Collective Bargaining Agreement between the University and the Communication Workers of America contains language in Addendum A that authorizes the Office of Talent Development & Human Resources to develop and administer a Job Enrichment and Apprenticeship Program for CWA bargaining-unit employees. Employees selected to participate in the program are given an opportunity to expand their knowledge and skills. In return, these employees are provided with an increase in pay to reflect the expanded knowledge/skill set that they have developed. All increases in pay are awarded in accordance with approved Wage Progression Schedule. |

PROCUREMENTS FOR MORE THAN $500,000
DATE:  April 2, 2018

TO:    Nathan J. Mortimer, CPA
       Vice President for Finance & Administration/CFO

FROM:  Luba Cramer
        Interim Director of Purchasing

SUBJECT:  Awards Exceeding $500,000 for Board of Trustees Approval

As requested of me, I provide to you the following procurements which exceed $500,000 for Board of Trustees consideration and approval at its meeting on April 18, 2018.

1.  **Blackboard Transact (Zip Card) System Five Year Renewal (Locally Funded)**

   The Department of Purchasing is proposing an award to Blackboard Transact, Incorporated for subscription and support. The Blackboard Transact system is a financial transaction and identification card management system, also known among campus as the Zip Card system.

   The system has capabilities to create and manage the University’s identification card system and administer the University’s meal plans, and interfaces with Aramark’s point of sale system.

   A five year contract extension for the period July 1, 2018 through June 30, 2023 totaling $665,640 or approximately $133,000 annually is sought. The multiyear agreement will save the University approximately $105,000 over the five year period as compared to single year renewals.

   This award is acceptable to the Department of Auxiliary Business Operations and the Department of Purchasing. The award was also reviewed and approved as to legal form and sufficiency by the Office of General Counsel.

   I recommend that an award be made to Blackboard Transact, Incorporated in the amount of $665,400 for a five year term and seek your approval and that of the Board of Trustees at its meeting on April 18, 2018.
2. **Auburn Science & Engineering Center Exterior Façade (State Capital Funded)**

The Department of Purchasing is proposing an award to HMH Restoration in the amount of $654,500 to continue the restoration of the Auburn Science & Engineering Center façade.

A project request was issued in February 2018, and eight responses were received as follows:

</tbody>

An award to HMH Restoration is recommended by the Office of Capital Planning and Facilities Management and the Department of Purchasing as its bid is deemed the lowest responsible bid. The award was also reviewed and approved as to legal form and sufficiency by the Office of General Counsel.

I recommend that an award be made to HMH Restoration in the amount of $654,500 and request your approval and that of the Board of Trustees at its meeting on April 18, 2018.

3. **College of Business Administration Addition (CBA) (Donations and Locally Funded)**

The project was pursued as a Construction Manager at risk and a Request for Qualifications (RFQ) was advertised during January 2017. The CBA project includes a 12,000 sq./ft. addition and a 2,300 sq./ft. renovation. The addition and renovation will include labs, study and lounge spaces, a corporate classroom, a boardroom, and office spaces.

Nine firms responded to the RFQ with three firms short-listed and rated using the best value selection process as follows: Regency Construction Services, Inc., 90.7; Hammond Construction, Inc., 80.2, and The Ruhlin Company, 78.2.

The Office of Capital Planning and Facilities Management and the Department of Purchasing awarded a contract to Regency Construction Services, Inc. in the amount of $14,731 for pre-construction services.
The planning phase is nearing completion, and the Office of Capital Planning and Facilities Management and the Department of Purchasing recommends a $4,246,278 GMP (Guaranteed Maximum Price) amendment for the construction phase of the project. The award was also reviewed and approved as to legal form and sufficiency by the Office of General Counsel.

I recommend that a GMP amendment be awarded to Regency Construction Services, Inc. in the amount of $4,246,278 and request your approval and that of the Board of Trustees at its meeting April 18, 2018.

Should consent to any such assignment be approved, Grantee shall notify the Agency. Any approved assignment or transfer shall not relieve Grantee of its obligations and duties under the terms, covenants and conditions of this Agreement. Grantee shall cause any assignee or transferee to expressly assume, and by reason of such assignment or transfer shall be deemed as having assumed, all of the obligations and duties of Grantee hereunder.

Notwithstanding the foregoing, this Agreement may, upon written notice to State, be assigned or transferred, in whole or in part, to any entity into or with which Grantee merges or consolidates, or to any entity that is an affiliate, subsidiary or parent of Grantee.

Upon either the voluntary termination of this Agreement, or the end of the term hereof, Grantee shall remove all of the Improvement prior to termination, at its own cost and expense, if State so requests, and shall restore the Easement Area to its original condition, unless otherwise agreed to in writing by State and Agency. Grantee’s obligations hereunder shall continue until such time as the Improvement is fully removed and the Easement Area fully restored as required herein, notwithstanding the stated date of termination in the notice provided by Grantee, or in the Agreement. Failure to remove the Improvement shall not be considered an extension of the term of the Agreement. (D) Upon termination of this Agreement, State shall have the immediate right to re-enter and repossess all or any portion of the Easement Area.

(E) Upon the termination of this Agreement by reason of the happening of any event of default specified in this Paragraph XI, or in any other manner or circumstances whatsoever pursuant to legal process, by reason of or based upon or arising out of the occurrence of any such event of default under this Agreement, Grantee shall pay to Agency all sums required to be paid by Grantee up to the time of such termination.

Akron’s revitalization fund gets noticed

By Sue Walton

The Council of Development Finance Agencies has awarded a 2017 CDFDA Excellence in Development Finance Award to the Development Finance Authority of Summit County and Development Fund of the Western Reserve for their work in creating the Akron Community Revitalization Loan Fund, the CDFDA said in a release.

The revolving loan fund, which was fully capitalized in July, provides financing for business development projects in distressed and urban areas of Akron, those places with a poverty rate of at least 30% and an unemployment rate of at least 10%, the DFWR told Crain’s in July.

Akron’s revitalization fund started with about $6.75 million in loan out mostly to smaller projects, with loans of between $500,000 and $2 million at a seven-year interest rate of 2.4%, the release said.

The fund started when the DFWR dedicated $6.75 million in Federal New Markets Tax Credit allocations, or the equivalent of $2.25 million, to capitalize it. Then the DFWR and its partners raised just under $3.6 million in local grants and investments to leverage the equity from the tax credits.

“The number of impressive projects that we have seen this year, this year’s recipients are real-life examples of what is currently taking place in the development finance industry,” Toby Kittner, CDFDA president and CEO, said in a news release.

Big year at the Akron Zoo

2017 was another record year for the Akron Zoo, which welcomed an all-time high of 416,942 guests throughout the year.

That eclipses the previous high mark of 398,976 set in 2016.

“Thank you to everyone who visited in 2017,” said Doug Pekarz, president and CFO, in a statement. “Through the support of the residents of Summit County and all who visit the zoo, we are able to support our mission to connect the community to wildlife through lifelong learning and conservation action. Together we are making a difference for the wildlife we care so deeply about.”

The zoo also set a single-day attendance record on Oct. 21, when 8,096 people visited during the park’s popular Zoo at the Zoo event. That was up from 7,550 on a single October day in 2016. Plus the park’s Wild Lights holiday event brought in 26,133 patrons, an increase of nearly 10,000 visitors from 2016.

University of Akron president: College still good return on investment

By: Todd Bloom

McGRATH — Tough in a cruel way. When one is running in a very tight race, when the backs are against the wall, one has to be prepared to fight. In that sense, the University of Akron is in a good position. The announcement of the new classes is the latest piece of the puzzle for the university. In the first quarter of the school year, the institution is already making a strong push to attract students. The number of enrollees is up, and the university is eager to show that it is still a viable option for students.

Cleveland.com, Akron Legal News and WKSU-FM are among the news outlets that covered the announcement of Akron Law’s new summer classes for incoming students.

Pitched coverage of Professor Matt Becker’s implantable opioid mesh that will reduce usage of opioids for post-surgical pain management. This story was covered by the Akron Beacon Journal, WKSU-FM, WAKR-AM, cleveland.com and WVIZ-TV among many other outlets.

Grounded in the Akron Beacon Journal on how Americans and Asians view Valentine’s Day gifts differently.

Cleveland.com, the Akron Beacon Journal and The Buchtelite featured stories on this year’s Rethinking Race slate of events.

UA Looking to Recruit More In-State Athletes

Not including the funding from the state, President Matthew Wilson says there are other factors involved when considering balancing the university's efforts on Ohio recruitment, including items that you might affect, recruiting facilities, locations where the team plays, and more. President Wilson makes a point to say that it's not about making Akron football or basketball at the school, it's mainly been restored at the school, and competition. Elisa Gargarella on inspiring students, Art Bombs and making Akron 'more rock and roll'

Elisa Gargarella

An associate professor of art education at the University of Akron, Elisa Gargarella, PhD, is known nationally for her work on art education and her efforts to make art more accessible to students. Her classes are designed to encourage students to think outside the box and challenge traditional ideas about what art should be.

Inspiring students with Art UP!

Gargarella is known for her innovative approach to teaching art. Her classes are designed to encourage students to think outside the box and challenge traditional ideas about what art should be. She believes that art education should be accessible to all students, regardless of their background or previous experience with art.

Art Bombs

Gargarella introduced the idea of “art bombs” to her students. Art bombs are small, portable sculptures that can be placed in unexpected locations around campus. They are meant to surprise and delight students as they go about their daily routine. Gargarella hopes that these art bombs will inspire students to think more creatively and to see beauty in unexpected places.

The University of Akron is committed to providing quality education to all students. We believe that art education is an important part of this mission. At the University of Akron, we are dedicated to making art more accessible to all students, regardless of their background or previous experience with art. With classes like those taught by Elisa Gargarella, we are confident that we are on the right track.

Myka Sondel

University of Akron students have begun a project to scan and digitize a collection of postcards for the Akron Art Museum.

Digitally scanning the postcards is a project that involves students from various majors and disciplines. The project is led by Dr. Thomas J. Yezewski, who is a professor of art history and museum studies.

The project began in the fall of 2019 and is expected to take several months to complete. The scanned postcards will be made available online for anyone to view and enjoy.

Gifts surge nearly 60 percent at UA; Student Union to be named after donor of $20 million

By Katie Sondel

1 In 2018, the University of Akron received nearly $20 million from a single donor, who has now increased the gift to nearly $200 million.

The donor is a long-time supporter of the university and has a long history of philanthropy. His gift will be used to fund a new student center on campus.

The Student Union, which is currently located in the John H. Martin Family Center, will be renamed in honor of the donor.

The University of Akron is committed to providing quality education to all students. We believe that philanthropy is an important part of this mission. Through projects like this one, we are confident that we are on the right track.
HIGHLIGHTS OF RECENT VIDEO PROJECTS

A video announced our presence on Spotify, a popular music-streaming service.

Zippy giving out hugs on Valentine’s Day was a student favorite.

Above, President Wilson’s impressive crate-stacking skills (19, with him on top!) made for great video.

Left, footage from a student mission trip to Haiti made for a compelling story.
OUR TWITTER PAGE IS SOMETHING TO TWEET ABOUT!

Our Twitter page is among the 150 most popular university sites worldwide and 65th in the United States, according to uniRank. That puts us ahead of the University of Virginia, Syracuse University, Duke University, Ohio University, Kent State and others.

“In the last year, I’ve really focused on increasing unique content for our Twitter page, but most importantly – it’s all about fun and entertaining engagement with students,” said Meghan Meeker, who manages the page as our social media specialist. “The customer service effort from the uakron account has increased significantly, sparking things like popsicle deliveries on hot days, or introducing a new freshman to friendly faces on campus. I believe those interactions have made all the difference.”

SUPPORTING STUDENTS’ END-OF-YEAR CELEBRATION

UCM, in close partnership with the Department of Student Life, again took an active role in the planning, marketing and day-of staffing of SpringFest. The format is changing this year to include a concert with a major artist. UCM and IT worked to create an innovative online ticket sales system to meet the needs of Student Life.
MESSAGE TO PROSPECTS: YOU’LL LOVE OUR CITY AND CITY LIFE

UCM continues to work closely with Admissions during the confirmation stage of the enrollment cycle.

We monitor response data and adjust student messaging accordingly. In one example, students overwhelmingly said they were unfamiliar with the Akron community.

To educate undecided students, the UCM and Admissions teams crafted a message focusing on our vibrant Akron community. In a subsequent survey, we saw a significant increase in the number saying they were knowledgeable about our city.

ENROLLMENT MANAGEMENT REPORT
New Freshman Outreach

The focus for the Office of Admissions during this time of year is continuing to move students that are 2018 high school graduates through the enrollment funnel, as well as engaging the 2019 and 2020 future high school graduates.

- Encouraging admitted students to confirm their enrollment
  - Initiatives include: Letters and postcards mailed to homes, e-mails to students and parents, phone calls, text messages, social media, digital marketing, on-campus events, off-campus events, etc.

- Encouraging applicants to submit additional materials to be considered for admission
  - Initiatives include: e-mails, phone calls and text messages to students, parents and school counselors

- Encouraging prospects to apply
  - Initiatives include outreach from the Office of Admissions to encourage students to submit an application

- Encouraging students that are 2019 high school graduates and 2020 high school graduates to visit campus and include UA on their ‘college choice’ list

Yield Events

On-Campus

- The Office of Admissions has hosted five major on-campus yield events for the 2018 high school class. Below is a comparison with our 2017 efforts.

- At **UA Scholars Day** and the two **Senior Day programs**, the students and their parents had an opportunity to learn more about their academic interest area, confirm their enrollment, complete housing applications, receive updates on their student financial aid and scholarships, as well as tour the campus and on-campus residence halls. Students also received a complimentary gift card to use at one of the on-campus dining facilities.
• The UA Legacy Brunch Reception was a new program that we hosted this year in collaboration with the Alumni Association. Students and their parents were treated to a brunch on the fifth floor of InfoCision Stadium. Guest speakers included UA alumni, as well as current UA students that have a parent that is a UA grad. VIP tours were conducted after the presentations. Each student in attendance received a $100 UA Barnes & Noble Book Scholarship. We also awarded one on-campus housing scholarship.

• The Admissions Officers also are hosting You and the Roo Shadow Days, as well as personal campus visits. The academic areas, as well as student services areas have participated in these campus visit opportunities as well.

• We hosted Discovering Diversity Day on Friday, Feb. 9. There were 312 students in attendance. (It was a mix of seniors and juniors in high school.) Bus transportation was provided for students from Akron, Canton, Cleveland, Lorain, and Columbus. Students had the opportunity to learn more about their academic interest area, attend information sessions, tour campus, dine in Rob’s Café, and interact with current students.

Off-Campus
• Additional yield events include meet-and-greets held at Starbucks/Panera restaurants outside of the local area – Cleveland, Columbus, Cincinnati, Toledo, Pennsylvania (Erie and Pittsburgh), Illinois (Chicago), New York (Rochester), etc. Students and parents that attend have the opportunity to meet one-on-one with an admissions counselor to get their questions answered, as well as have a complimentary meal.

• The Admissions Officers also are visiting high schools again during the winter/spring to meet with admitted and confirmed students. We are distributing Zippy cookies and UA promotional items to students during these visits, as well as answering their questions and getting them excited about joining the UA community.

Recruitment Events
• On Saturday, April 21, we host Spring Visit Day and kick-off our major recruitment events for the 2019 high school class. We’ve been promoting this event via print, electronic and social media.

If members of the Board of Trustees are interested in attending any of our on-campus yield events, please contact me at gentile@uakron.edu or 330-972-6345.

Communication
• We are continuing with our blended approach to communicate with students to encourage them to confirm their enrollment:
  o Letters and postcards mailed to homes – Mailings scheduled for at least once a month
  o Confirm Enrollment electronic campaign – E-mails sent on a weekly basis.
  o Texting campaign – Text messages sent on a frequent basis.
Social media – Facebook, Instagram, SnapChat, Schools App
- Digital marketing – Coordinated by University Communications & Marketing.

- Each student that has been admitted to UA also has received at least one personal note from a current student, a phone call from a current student, letter from their academic interest area, and at least one e-mail from their academic interest area.

**Admissions Personnel**

Courtney Johnson-Benson, Senior Assistant Director of Admissions was awarded the New Member Award by the Ohio Association for College Admissions Counseling (OACAC) at the Annual Conference in March. The New Member Award recognizes significant contributions to OACAC by a member with fewer than five years in school counseling, assess work or college admissions. One nominator summed it up best by noting that ‘Courtney is a trailblazer, she is respected and she is the future of our Admissions profession.’ We are very proud of Courtney.

**Financial Aid Processing for New Freshmen**

The Office of Student Financial is diligently processing financial aid applications for new students. To date, more than 9,000 applications have been processed for new freshmen and almost 5,000 of those have received their financial aid award letters.

Staff are continuously reaching out to students who have been selected for review by the Department of Education (called verification) to encourage them to submit required documents as soon as possible so that awards can be made. Financial aid packages are being mailed within 24 hours of receiving the FAFSA results and completing the required verification review. To date more than $46 million in financial aid (grants, scholarships, student loans, and work study) has been offered to this group.

**Student Loan Default Rates**

The University received its draft cohort default rate for FY 2015. The draft rate is 10.8%. This includes borrowers who entered repayment on or after 10/01/2014 and who defaulted before September 30, 2017. So it includes student and parent borrowers who defaulted in 2015, 2016, and 2017.

This is a 2.6% decrease from the official FY 2014 rate of 13.4%. This is a positive trend and can be attributed to a recovering economy, improved financial literacy efforts by the Department of Education, and an increase in the academic quality of our new freshmen and transfers.

Financial Aid Support Center

The Office of Student Financial Aid is expanding its service to students through a Financial Aid Support Center that provides 24/7/365 access to live financial aid advisors, a customized web page where students can chat with advisors, access financial aid articles and frequently asked questions, and submit a ticket for help. The project is on track, making excellent progress, and set to go live on May 17.

RESEARCH REPORT
Research and Scholarly Activities Highlights

Society of Children’s Book Writers and Illustrators Award

David Szalay, associate professor of art, received the Honor Award at the Portfolio Showcase at the 2018 Winter Conference for the Society of Children’s Book Writers and Illustrators. Hundreds of art directors, editors, and agents from the publishing industry were invited to a private viewing, and winners were selected by a jury of industry professionals.

Szalay teaches illustration and graphic design in the Myers School of Art. His work will be published this year by Hough-Mifflin Harcourt, McGraw-Hill, Pearson Education, Tighe, Highlights Magazine, and Cricket Magazine. Szalay also has work-in-progress with Penguin/Random House.

NSF CAREER award for anti-cancer therapeutics research

Dr. Adam Smith, assistant professor of chemistry, has received a prestigious NSF CAREER award, for $650,000, for research using advanced fluorescence methods to measure lipid-protein interactions in biological membranes. The goal is to develop a quantitative chemical model for the interface between plasma membrane lipids and a class of membrane proteins called receptor tyrosine kinases (RTKs). RTKs are integral membrane proteins that regulate cell growth and differentiation, and are targeted by a new class of anti-cancer therapeutics that will be greatly improved by this research.

This project also includes development of a 3D-printable, smartphone spectrometer (the SpecPhone) for implementation in university laboratory courses. The low cost and simplicity of the SpecPhone also make it accessible to K-12 students and citizens so that they can engage in real-world science problems. The objectives are to create new curriculum and teacher training workshops for K-12 STEM education, to participate in local Maker Faires, and to develop protocols for a transformative citizen science project in the Lake Erie watershed.

“When I Stutter” documentary to be shown at international stuttering congress

“One World, Many Voices: Science and Community,” the inaugural Joint World Congress of the International Cluttering Association, International Fluency Association, and International Stuttering Association, being held in Japan this summer, will feature the documentary as well as a series of lectures by UA’s Dr. Scott Palasik, associate professor, School of Speech-Language Pathology and Audiology.

Dr. Palasik co-wrote the documentary, is featured in it, and also wrote one of the film’s songs. The documentary reveals the profound emotional impact that stuttering has had on a diverse group of individuals. It has been shown at 10 film festivals worldwide and has won five awards.

New study focused on Facebook and its participants published

Dr. Amber L. Ferris, assistant professor of speech and theatre arts, with Dr. Erin Hollenbaugh, associate professor in Kent State’s School of Communication Studies, studied the variables that impact participants’ dependency upon Facebook to achieve communication goals from a uses and gratifications (U&G) perspective. Participants motivated by virtual community, or meeting new people online, were most dependent on the medium. Results are discussed in light of existing U&G and dependency research with respect to functional alternatives. Limitations and directions for future research are also offered. Their results are published in the Journal of Broadcasting & Electronic Media.
Evolutionary ecologist is also a noted bumblebee conservationist

Dr. Randy Mitchell, holder of the Mary E. Glenny and Dr. Fred H. Glenny Professorship in Biology and Director of UA’s Field Station in Bath, studies the evolutionary ecology of plant pollinator interactions, focusing on how plant mating patterns and success are affected by pollinator behavior and abundance. His work links directly to conservation efforts and management of endangered (or invasive) species. Dr. Mitchell’s current focus on mating systems in a native wildflower also involves bumble bee conservation, particularly the endangered rusty patched bumble bee. With other bumble bee experts, he presents workshops on bumble bee biology, identification, and conservation.

Designing new types of high-speed analog computers for DARPA

Ocius Technologies and UA, along with Case Western Reserve University, have been awarded $1.5 million by DARPA, the Defense Advanced Research Projects Agency. This Small Business Technology Transfer (STTR) Phase II award comes after the successful completion of Phase I which focused on the simulation and design of analog co-processors. UA’s team is lead by Dr. Arjuna Madanayake, associate professor, and Dr. S.I. Hariharan, professor, both from the Department of Electrical and Computer Engineering.

Phase II’s research will explore how computationally intensive engineering and physics problems can be more rapidly solved using new types of analog computers. Designing and implementing high-speed analog computers based on RF/mm-wave circuits would greatly accelerate the solution of linear and non-linear partial differential equations arising in applications related to electromagnetics, magnetohydrodynamics and fluid mechanics.

Cleveland to Chicago in 28 minutes – UA joins Great Lakes Hyperloop consortium

UA has partnered with Hyperloop Transportation Technologies (HTT), Northeast Ohio Areawide Coordinating Agency (NOACA), and others to explore the potential for a Great Lakes Hyperloop connecting Cleveland and Chicago. HTT and NOACA have raised $1.2 million to conduct this feasibility study.

“There are obviously many technological challenges associated with taking the next steps on the hyperloop,” says Dr. Donald P. Visco Jr., dean of the College of Engineering. “The University of Akron is poised to contribute with many relevant areas of expertise, notably sensors and advanced materials, especially under vacuum conditions.”

“The Great Lakes mega-region represents a $15 billion transportation market with tens of millions of tons of cargo and millions of passengers connecting to the cities within the region every year,” says Grace Gallucci, executive director of NOACA. “Technologies like the Hyperloop can take our over-stressed infrastructure into the 21st century and beyond.”
“Furnishing Eternity: A Father, a Son, a Coffin, and a Measure of Life”

David Giffels, associate professor of English, published his latest book “Furnishing Eternity,” a poignant meditation on aging and mortality, friendship, and the bond of a father and son. Publisher’s Weekly says “…Giffels treats heavy themes with a light touch and deadpan humor, drawing vivid, affectionate portraits of loved ones in the richly textured setting of Akron, Ohio. The result is an entertaining memoir that moves through gentle absurdism to a poignant meditation on death and what comes before it.” Giffels sees the lessons learned from his father in his own teaching in the classroom, and remarks that “…teaching requires humility, even though it seems like you are the center of attention in the classroom ... it really requires listening and empathy.”

Polymer professor publishes book after decade of intensive research

Dr. Shi-Qing Wang, Kumho Professor of Polymer Science, worked for a decade toward his goal of producing a timeless book on polymer rheology, rooted in knowledge discovered here since 2004. Now, “Nonlinear Polymer Rheology: Macroscopic Phenomenology and Molecular Foundation” has been published.

The goal was to expose readers to the latest knowledge of an old subject — the rheological behavior of polymer melts and concentrated polymer solutions. Wang and his team wanted to achieve a realistic physical picture of nonlinear polymer rheology. The book is based on a large collection of phenomenology, partially inspired by the new conceptual framework, and written to provide comprehensive experimental information and conceptual discussions in order to develop a new, reliable and realistic understanding of the nonlinear rheology of entangled polymers.

UA professors share their research and scholarly expertise with Akron and beyond

The Jasen Sokol show, airing on local AM radio station 1590 WAKR, turns to UA faculty for timely and informative information. Recent UA guests include:

- **Dr. Toni Bisconti**, associate professor of psychology, addresses the complexities of mental health issues during her weekly segment.
- **Dr. Karl Kaltenthaler**, professor of political science, discussed the indictments related to Russian interference in the 2016 U.S. Presidential election.
- **Dr. Stacy Willett**, professor in the Department of Disaster Science and Emergency Services, addressed ALICE (emergency preparedness) training.

With a variety of ways to listen, including online streaming, UA professors can be heard world-wide.

Teaching telepractice and cochlear implant skills in Mexico, Central and South America

Dr. K. Todd Houston, professor in the School of Speech-Language Pathology and Audiology, provided a series of lectures and hands-on training on the topic of telepractice and cochlear implants with a goal of expanding service delivery to underserved populations with hearing loss in Mexico and the countries of Central and South America. This initial training is the first step in developing a core group of professionals with the knowledge and skills to provide evidence-based telepractice services and to meet the growing need for consistent and effective hearing health care services. Telepractice allows clinicians to provide diagnostic and treatment services that would otherwise be unavailable to some families of children with hearing loss and adults who are deaf and hard of hearing.
Technology Transfer Highlights

**UA spinout company receives first 2018 investment from Flashstarts’ Cleveland200 Fund**

Flashstarts, a Cleveland business accelerator, made its first investment of this year in a UA spinout company OncoSolutions, which grows 3D models of tumors and uses them to test possible cancer treatments from pharmaceutical companies. Based on research by Dr. Hossein Tavana, associate professor of biomedical engineering, OncoSolutions seeks to revolutionize the way cancer drugs are tested in the early-stage preclinical drug discovery phase. The company was formed by Dr. Tavana and UA Ph.D. graduate Stephanie Ham in 2016 following completion of the University of Akron’s National Science Foundation I-Corps program. This investment marks the first time Flashstarts has invested in a UA spinout, and Flashstarts is currently vetting other UA-affiliated investment opportunities. The focus of the Flashstarts accelerator program and its affiliated Cleveland200 fund is to equip startups for follow-on investment from a new group of Cleveland-based seed stage funds totaling over $100 million.

**Civil engineering professor leading a team in I-Corps@Ohio cohort**

Dr. Christopher Miller, associate professor of civil engineering, and students from his lab were chosen as one of 14 teams to participate in this summer’s I-Corps@Ohio cohort. Miller’s team will go through a seven-week training and receive $15,000 in funding to support their project on drinking water treatment plant decision support software.

The I-Corps@Ohio program provides hands-on training to Ohio faculty and students in the Lean Launchpad Business Model Canvas process, which establishes a mechanism for evaluating the market need and commercial potential of their technologies. Ten UA teams have completed I-Corps@Ohio over the past four years.

RESEARCH 10
Disclosures submitted in FY18 to date continue in a variety of fields, with nearly 60% being in computers/data/sensors/devices and polymer science. All are being assessed regarding the technology and potential market, and all except four have been protected with a provisional patent. A provisional patent application protects an invention for one year. During this time a technology and market assessment is conducted to determine if a non-provisional patent should be filed. Once filed, it takes several years for the claims to be evaluated, revisions to be filed, and a patent to issue.

The funding source of research leading to inventions can affect the ability to commercialize the technology. Industry research agreements usually provide options for exclusive or non-exclusive licenses, with negotiated fees. Agreements often include provision for patent costs to be paid by the research sponsor. Government funding gives the university the right to patent and license, while including government use provisions. Other funding sources typically leave patent rights under university control and responsibility. Regardless of research funding, by Ohio statute any intellectual property created by State employees or by anyone using state funding or facilities is owned by UA.

  - The Thomas J. Vukovich Award for Outstanding Leadership was awarded to 10 juniors and seniors representing seven chapters for their achievements and contributions to the community.
  - Devin Allen of Theta Chi and Carley Segers of Alpha Delta Pi were recognized as Greek Man and Woman of the Year.

Undergraduate Student Government (USG) completed election week programming with Taylor Bennington and Andrew Barry being reelected President and Vice President.

At the Mid-Atlantic National Intramural and Recreational Sports Association (NIRSA) Region 1, student Courtney Styfurak was selected as one of the outstanding student officials from 19 different institutions.

In March 2018, ZipAssist, along with Development, forged an ongoing partnership with Rubber City Arches, LLC to provide approximately $2,000/month in hot meal vouchers for students served through the Help-A-Zip referral program.

Academic Advising and Student Success (CAASS)

- Advising Transition
  - A new model for academic advising was implemented effective Monday, January 29. Following an initial recommendation from the Ernst & Young team, the model is benchmarked upon a successful pilot conducted within our College of Business Administration among students who engage with a degree-granting college early in their academic careers. This model also is a part of the work of Complete College America, which refers to the first year for a college student as the “Momentum Year”, and includes interventions to assist a student in identifying a major upon intake. The reorganization also developed an Exploratory Advising center to move undeclared
students to a major and degree-granting college within their first year on campus, while also providing support to the academic colleges. The advising model ensures increased and more meaningful student contact.

- **Exploratory Advising and Academic Support (EAAS)**
  - EAAS staff introduced the functions and objectives of the newly-formed Student Success Center/Exploratory Advising unit to ZACADA, the campus advising group, during its meeting on February 23. The presentation highlighted the following:
    - Services and advising undecided/exploratory students
    - Explore – a new Learning Community
    - Akron Major Explorers (AME) mentoring group
    - Placement Testing Evaluations
    - Help-A-Zip Academic Referrals
  - EAAS provided support for students seeking resources to improve academic performance.

- OA participated with the Parent Mentor Office of the Green Local Schools for the 2nd Annual Provider Expo featuring providers for students with disabilities. The expo provided families with information about various services, including educational opportunities for individuals with disabilities. The expo was part of the Green Schools Foundation’s Annual Celebration of Education event that is typically attended by more than 2,000 individuals.

### Career Services (CS)

- **Student connections for January/February 2018:**
  - 232 students exploring careers with CS online assessment tool Focus2
  - 736 student appointments
  - 78 mock interviews
  - 711 resume reviews
  - 3042 students used Handshake job board

- **Employer connections for January/February 2018:**
  - 10,192 employers using Handshake
  - 4,466 new job postings on Handshake (full- and part-time)
  - 1,322 new internship/co-op job postings on Handshake
  - 5,788 total full-time, part-time and internship/co-op job postings on Handshake

- **“Career Closet”**
  - Career Services, ZipAssist and Undergraduate Student Government are teaming up to develop a “Career Closet” for students which will start out as a business jacket loaning program. These jackets will be new jackets made possible primarily through donations from retailers and other companies and will allow students to feel confident as they attend interviews, career fairs or networking events. Another option for students is the “Blue Boutique” that is operated by Goodwill a few blocks away. The jackets will be stored on rolling racks in the Career Center and can travel around campus for various “pop-up” lending locations in conjunction with campus events.

- **Career Fairs**
  - Career Services hosts one main career fair each semester and also hosts several smaller niche career fairs. Some of these events are co-hosted with the colleges to provide opportunities for specific majors.
    - The Internship and Career Fair was held on February 7 which was for all majors.
  - Despite the major snowstorm on the day of the Internship and Career Fair, 454 students and 100 employers visited campus, including FirstEnergy, GoJo Industries, InfoCision, US Customs & Border Control, and Defense Finance & Accounting Services. Students had the opportunity to visit the “Career Fair Prep
Room” to have a LinkedIn photo taken, research employers on laptops and watch a slide presentation on “How to Market Yourself at a Career Fair.”

- Three Part-Time and Seasonal Job Fairs were held on February 27, March 7 and March 13 to help connect students with employers who have part-time and seasonal hiring needs, such as Smithers-Oasis, Sherwin-Williams, Panera Bread, Spectrum and Oriana House. Each fair reached maximum capacity and filled the second floor of the Student Union.
- “Employer Office Hours” were held throughout the semester in which employers such as Goodwill Industries, Jakprints and Peace Corps staffed an employer interview room in the Career Center to review resumes and provide mock interviews to our students.

- The Nursing Networking Event on March 21 was co-planned with the Nursing Student Organization. Eight major hospitals in Northeast Ohio such as Akron Children’s Hospital, Cleveland Clinic Akron General, Summa Health System and University Hospitals set up recruitment tables and participated in an employer panel discussion for nursing students.
- The Best Practices Event for Student Teachers was held in conjunction with the College of Education on March 14 with seven educators from local K-12 school systems participating in an employer panel for 112 students from the College of Education. One of the 19 educators attending provided 76 students with mock interviews.
- On March 20, Career Services co-hosted a Social Work Career Fair with the School of Social Work with 54 employers and 102 students attending.

Despite the major snowstorm on the day of the Internship and Career Fair, 454 students and 100 employers attended!

Counseling and Testing Center (CTC)

- As part of State of Ohio HB 28 suicide prevention efforts, CTC developed a new brochure for the UA community called *Goal Zero: Zips Savers Guide to Suicide Prevention*. It includes warning signs, helpful resources and is sized to fit on the back of a cell phone case.
- CTC presented its annual Taking Care Week with 1,318 participants. Social media advertising included a special Snapchat series viewed by 1,400 people.
Dean of Students (DOS)

- Education and Prevention of Sexual Violence
  - Sexual Assault Awareness Month is recognized across the country during the month of April each year. The Dean of Students Office has been collaborating with the Sexual Assault and Violence Education (SAVE) team to prepare for the month of programs. Featured programs this year will include:
    - LIFT (Leverage, Insight, Freedom, Truth) – a program designed to help men better understand their behavior and beliefs, and what it means to be a man on a contemporary college campus.
    - Take Back the Night – an evening rally and walk across campus to ensure safety and security on campus as well as raise awareness of the incidents and impact of sexual violence.
    - Tarana Burke Keynote Address – Tarana is the woman whose work laid the foundation for the #MeToo movement raising awareness of incidents of sexual harassment and sexual violence.
    - Walk of Heroes – an annual fundraiser for the Rape Crisis Center of Summit and Medina counties and a favorite activity among student organizations.

- Administrative Leadership
  - The Dean of Students Office worked with the Office of General Counsel and select faculty and administrators to revise The University of Akron reporting protocols of gender-based misconduct. The Title IX protocols explain how incidents involving students and experiences of misconduct including sexual harassment, sexual assault, stalking and intimate partner violence are addressed when reported to The University of Akron. The revised protocol includes simplified language, additional detail and necessary clarifications to help the students, faculty and staff better understand what happens following a report of gender-based misconduct. The reporting protocols are reviewed for revision annually.
  - The Dean of Students Office also collaborated with Athletics to coordinate a response to a request from the Ohio Department of Higher Education for information about sexual assault prevention and The University of Akron student athletes, coaches and Department of Athletics. The summary response clarified efforts taken by The University of Akron to prevent gender-based misconduct within the athletic program.

- Assessment
  - In February 2018, the Dean of Students Office and the Sexual Assault and Violence Education (SAVE) team conducted a campus climate survey to better understand the experiences and beliefs of UA students regarding sexual violence. The survey provided insight in planning interventions and programs.

Learning Communities / Akron Experience

- 2018 Learning Community Planning
  - Fall 2018 offers 52 Learning Communities for incoming students to participate in with a total capacity of 1,216. Of these, eight will be new offerings for the upcoming fall semester.

• **Learning Community Rollout**
  o Offerings and the enrollment process was presented amongst the academic advising units within the scheduled ZACADA meeting. Learning Community (LC) enrollment will begin during orientation programs over spring break.

• **Akron Experience (AE)**
  o For fall 2018, **53 Akron Experience sections** have been scheduled for enrollment. Of those, 27 AE sections are connected to a Learning Community and 26 sections are identified for general enrollment of emergent students who are not interested in a LC experience. These general sections are tagged and designated for individual unit/colleges. These designated sections will provide additional opportunities for colleges to orient and engage their student populations with programs, services and support within the degree-granting college.

**New Student Orientation (NSO)**

• **Point in time, confirmed students who have paid confirmation fee and have been scheduled for a NSO program:**
  o As of March 19, **1,554 new freshmen** have been confirmed and scheduled for a NSO program.
  o As of March 19, **70 transfers** have been confirmed and scheduled for a NSO program.

• **Future Zips Confirmation Fee Award**
  o All students admitted to The University of Akron are required to submit a $145 University Confirmation Fee. Eligible students may apply for the **Future Zip Confirmation Fee Award**, which would cover the $145 confirmation fee and allow students to continue the enrollment process. There are a limited number of awards per year. Eligibility for this award is based upon significant financial need and student’s participation in a Future Zips Financial Workshop, which has been designed to help students with financial need persist and graduate. Multiple workshops will be offered for students to identify preference. Students will be reviewed on a first-come-first-served basis while award is available.

• **Orientation Breakout Sessions (new for 2018)**
  o Freshman orientation programs have a student panel as a portion of the day for students and parents which is comprised of student orientation staff members. The panel consists of 15 members with UA stories ranging from the life of a STEM major, the importance of getting involved on campus, recovering from a poor grade by using campus resources, realizing you are in the wrong major, and the benefits of getting to know your professors, just to name a few.

• **Ad Astra Scheduling Software Implementation**
  o The University of Akron engaged Ad Astra to support student scheduling. Ad Astra Information Systems provides clients with two independent software solutions that provide significant benefit over CollegeNET Series25. Astra Schedule is space assignment software designed to optimize space utilization and to serve as the single campus-wide scheduling tool for both courses and events. Platinum Analytics is strategic scheduling software that analyzes historical enrollment, enrollment trends, student progress, and student course demand to recommend the most demand-responsive, resource-efficient and cost-effective schedule of classes. Implementation will yield incremental results while our team is able to fully deploy several previously untapped degree progress functionalities in PeopleSoft.
  o General Timeline:
    (1) Contract was signed at the end of December 2017;
    (2) Initial scoping conference calls took place in January 2018;
    (3) Decision to implement Astra Schedule and Platinum Analytics simultaneously was made in February 2018;
    (4) Implementation conference calls began in March 2018;
    (5) Platinum Analytics site visit occurred Monday, March 19, 2018;
    (6) Astra Schedule is expected to be fully implemented by the end of 2018;
    (7) Platinum Analytics is expected to be fully implemented by the end of 2019.
  o On March 1, Ad Astra delivered a revised scheduling meeting pattern grid intended to enhance our ability to create a fall 2018 schedule of classes that would maximize our 4-day Core/5-star Friday initiative. The project team determined that, with the new meeting pattern grid, significantly more course sections must be scheduled on pattern, course sections need to be
distributed liberally throughout the day rather than compressed during a peak period of 10am to 2pm, and the pool of general purpose classroom space must expand to include departmental space that could be used as classroom space. Nearly all colleges, schools and departments worked diligently to create a fall 2018 schedule of classes that carefully considered the expectations of the new meeting pattern grid.

- On March 16, we were able to release a fall 2018 schedule of classes to the colleges, schools and departments for review and final maintenance. All sections had space assigned, and 88% of the schedule was scheduled during the 4-day Core.
- During our March 19 site visit, the results of a HESI (Higher Education Scheduling Index) analysis were presented. The findings outline the extensive work that we need to do in order to schedule strategically. Highlighted points include:
  - While a four-year public university of our size should present a schedule of classes that results in over 60% of its sections filling at over 70%, UA averages 38% of its sections filling at over 70%;
  - On average, 65% of all sections offered during a semester have been off pattern (during fall 2017, we had over 500 unique meeting patterns) creating a waste of 17% in space utilization;
  - On average, 68% of all sections offered during a semester have been between 10am and 2pm.
- Throughout the summer, our focus will be on strategic scheduling. Our Strategic Scheduling Team, which is a 10-member group comprised of five college leaders, two scheduling leads, two student success advocates, and the Provost, will meet via Skype for Business with our Ad Astra project consultants every other week. Analyses will include a historical baseline, historical trend, program, and predictive program.

Student Health Services (SHS)

**AUDIT (Alcohol Use Disorders Identification Tool)**
- SHS is planning to strengthen screening for problematic alcohol use by utilizing the AUDIT screening with every student, and have had a discussion with the Counseling & Testing Center to function as a first-level referral source for positive AUDIT screens. During fall semester work was done to make sure the tool was completed as intended. With the start of the spring semester, data is being compiled on the incidence of positive screens to develop some data on the problematic alcohol use on the UA campus. This data will be used to develop campus normative discussions for programming.

**Planned Parenthood**
- Free STI clinic sponsored and conducted by Planned Parenthood took place in February and March. It will continue to take place the first Wednesday of each month throughout spring semester. There have been 75 students screened during these events.

**Alcohol/Drug Task Force**
- The Alcohol/Drug Task Force is comprised of 36 members including UA colleagues, Summit County Public Health, Summit County ADM Board, The Depot, and University Edge.
  - Four sub-committees were identified as essential:
    - Data
    - Programming
    - Policy/Rules/Procedures
    - Communication
  - A multi-institution survey on prescription and illegal drug use, sponsored by The Ohio State University, is in the planning stages and will take place in April. Five thousand randomly selected names and email addresses will be used.
  - The Programming Committee is working with Bob Kropff and the Communications subcommittee to create a web page dedicated to education and support/resources for the campus.
  - The Programming Committee is also working with the CBA marketing class to develop a social norming campaign around student alcohol and drug use utilizing data gleaned from multiple data collection surveys and programs centered around the culture of our student population.
  - The Sexual Assault and Violence Education Campus Climate Survey included AOD content.

**Ohio College Health Association**
- Alma Olson will assume the office of President of the Ohio College Health Association during the annual meeting in April.

**Service Utilization**
- Patient Encounters
  - 2016/2017 = 1,521
  - 2017/2018 = 1,410
  - Year-to-date = 9 percent increase
- Spring semester utilization is trending downward as compared with same time interval last year. Most common diagnoses were requests for pre-participation physicals, TB testing, allergies and dermatitis, with more freshman accessing services. There was an increase in utilization in December due to respiratory illnesses, with a minor increase in influenza-like illnesses. Spring semester saw an increase in influenza activity. Of note, referrals, either as a student self-referring or referrals from the Counseling & Testing Center for medical management of mental health complaints, has seen a significant increase this semester.
Student Life (SL)

- The Department of Student Life is excited to announce the launching of the Campus Cupboard, a food pantry for students located on the first floor of the Student Union. The initiative is meant to help students in need of food assistance. The project has been funded initially by Undergraduate Student Government who took action through legislation to ask UA Administration to establish a food pantry. There is also information on local hot meal assistance as well.

- The University of Akron Game Room was the host site for an Association of College Unions International (ACUI) sectional billiards tournament as part of the recreational tournaments held nationwide. Joe Gimmarco and Anne Bruno served tournament directors for the event held in early March where 21 men from UA, Purdue University, Indiana University, James Madison University, Eastern Kentucky University, and Madison Area Technical College plus one female from James Madison competed in the two-day double elimination tournament. UA has hosted sectional tournaments for the past eight years.
