PicPick is a full-featured Windows screen capture program. Its feature set includes:

- **Advanced screen capture** - scrolling window, full-screen, freehand, and more.
- **Image editor** - shapes, text, color correct and special effects
- **Alignment tools** - ruler, magnifier, protractor, and cross-hairs

Follow these instructions for PicPick Installation and first use.

For installation questions, contact the Support Desk, at x6888 or Support@uakron.edu.
