TOUCHDOWN SETUP

The following steps serve as a guideline to set up Touchdown on an Android:

1. Open Touchdown and select the Settings button.
2. Select Advanced.
3. Select Legacy Settings.
4. At the very top of the screen is a gray button labeled Quick Configuration – select this button.
5. Enter the full email address (i.e. exotestuser@uakron.edu) and password.

6. At the bottom left select **Automatic**.

7. Wait for the configuration to complete. It will take a few minutes.

8. Once complete, perform a sync – this may take up to 30 minutes, depending on the amount of data you have on the server (mail, contacts, etc.).
