When the School of Family and Consumer Science was divided into three programs going into the Fall semester of 2016, these two programs were administratively aligned with the Myers School of Art. This has been a challenge for the staff and faculty as they reside in two separate campus locations and are quite different in developmental program stages.

   c. **Resources**:

Since the two programs are administratively aligned only with the Myers School of Art, the Director is split between the three areas: Art, Interior Design and Fashion Merchandising. Additional staff consists of one **Office Assistant** who has been temporary since July 2017. Current contract runs through December 2018.
Duties are split evenly between the two programs. 2. Future Plans

Grow enrollment.
There are a fair number of majors in each program, but with one faculty taking the buy-out in each program June 2018, both programs are down to bare bones in faculty and staff. Numerous restructures and divisions in recent years leaves both programs without a sound direction.

Curriculum is being updated.

New Coordinator in the Interior Design program is enthusiastic and determined. Has hired new, accomplished part-time faculty and will start implementing curricular updates this year.
